RUSSIA EXPLAINS

OFFICIAL STATEMENT ON THE MANCHURIAN TREATY.

WAS A MERE MODUS VIVENDI

WAS BOUND TO PROTECT HER ASIATIC FRONTIER.

NEW PHASE GIVEN SITUATION

UNITED STATES GIVEN GOOD ASSURANCES.

St. Petersburg, April 5.—The Official Messenger today publishes a detailed review of the negotiations conducted by the allied powers with the Chinese plenipotentiaries at Tien Tsin and Pekin, and of the negotiations that led to the presentation of the French draft of peace conditions which consisted of twelve points, but which are not yet concluded. The Russian government then makes the following statement:

"While anticipating an early settlement of the questions affecting the mutual relations between all the powers and China, the Russian government on its part considered it necessary to concern itself with the establishment of a permanent order of things in the Chinese territories along the borders of which the Russian Asiatic possessions extend for a distance of eight thousand versts (5,300 miles.) To this end, provisional written conditions for a modus vivendi were agreed upon first between the Russian military authorities and the Chinese governors of three Manchurian provinces.

"With reference to the institution of a local civil administration subsequently, and after a careful consideration of all of the circumstances, the Russian government drew up the draft of a special agreement with China, providing for the gradual evacuation of Manchuria, as well as for the adoption of provisional measures to assure peace in that territory and to prevent the recurrence of events similar to those of last year.

"Unfortunately, with the object of stirring up public opinion against Russia, alarmist rumors were circulated in the foreign press regarding the purpose and intentions of the Russian government. Falsified texts of a treaty, establishing a protectorate over Manchuria, were quoted, and erroneous reports were designedly spread of an alleged agreement between Russia and China. As a matter of fact, this agreement was to serve as a basis for the restoration to China, as contemplated by the Russian government, of the province of Manchuria which, in consequence of the alarming events of last year, was occupied by Russian troops. In order that the requisite military measures might be taken it was imperative that the question should be settled one way or the other. It was impossible to lay down forthwith, by means of a mutual agreement, the conditions of the evacuation of Manchuria. According to the news received, serious hindrances were placed in the way of the conclusion of such an agreement and, in consequence its acceptance by China, which was indispensable for the gradual evacuation of the province, proved to be impossible.

"As regards the eventual restoration of the province to China it is manifest that such intention can only be carried out when the normal situation is completely restored to the empire and the central government established at the capital independent and strong enough to guarantee Russia against a recurrence of the events of last year."

The Russian government concludes its lengthy statement respecting the Manchurian agreement in these words:

"While the Russian government maintains its present organization in Manchuria to preserve order in the vicinity of the broad frontiers of Russia, and remains faithful to its original and oft-repeated political program, it will quietly await the further course of events."

A GRATIFYING SITUATION.

Washington, April 5.—The United States government has received a communication from the government of Russia of unusual importance. It bears on conditions in China and particularly those relating to Manchuria. The document has created a profoundly favorable impression and at the state department it is looked upon as the most salutory development that has occurred for many months in the eastern situation.

Secretary Hay received the communication from Count Cassini last night and communicated it to the president. Although the terms of the Russian communication are withheld it is known that Russia takes occasion to give strong assurances of her disinterested purposes throughout her dealings with China. As to Manchuria it is stated that Russia's course never has varied from the determination to leave that province as an integral part of China and to retire the Russian troops as rapidly as safety will permit.

But as a more signal evidence of Russia's purposes and as an evidence of the emperor's devotion to the principle of peace, assurances of a definite and satisfactory character are now given as to the execution of these purposes. The belief is held in official quarters that the assurances of Russia are so sweeping as completely to avert the threatened crisis in Manchuria.

SOME BOSSES SIGN SCALE

STRIKING PAPERHANGERS AND PAINTERS CONFIDENT.

Knights of Labor Endorse Position of the Workmen—L. O. Hull Discusses the Conditions.

The strike of the painters and paperhangers has not yet reached the stage of adjustment, and the meetings of the union today were held at Knights of Labor hall, where several new members were received.

The members of the union still express every confidence that they will secure the assent of the contractors to their terms and it was stated at the hall this afternoon that four of the employers had already signed the scale and three others had signified their willingness to do so.

At its meeting last evening Liberty assembly, No. 2315, Knights of Labor, adopted resolutions endorsing the position of the striking workmen, pledging sympathy, support and financial assistance if it be needed.

THE EMPLOYERS' POSITION.

Speaking of the situation today, L. O. Hull said:

"The Painters' and Decorators' union demands thirty cents per hour for paperhangers. I suggested some time ago that, inasmuch as some were good workmen and some bad—some fast workmen and some slow—that it would be unfair alike to the men as well as the employers to pay all the same price per hour, and I proposed that each man be paid, not by the hour, but by the roll, according to the quality and quantity of work done; when the paperhanger who does his work well and rapidly could make more than the union demands. This proposition did not meet with their ideas of equity, and they decreed that all paper should be hung by the hour. Now, what do we see? The men strike on all of us who employ men by the hour, while other dealers who employ men by the roll are not interfered with; so these dealers and paperhangers who ignore the union entirely are the only ones to profit by this strike. The moral is obvious, since the rule to hang paper by the hour is, by the union itself, 'more honored in the breach than the observance.' The evil effects of a proonged strike are far-reaching. It crippes the business of the empoyer and brings suffering and privation not ony to the men on strike themseves, but to their wives and families as well and finally destroys that good will, 'that fellow feeling that makes the world akin,' which should exist between employer and employed, neither of which can exist without the other. Both sides may indulge in loud talk about their independence, but no man is independent in the strict sense of the term; hence the paperhangers are no more necessary to us than we are to them. We have been paying the paperhangers twenty-five cents an hour—all we can afford to pay under existing circumstances, as there are too many of us engaged in the business and the competition is so keen and fierce that we are frequently compelled to pay the paperhanger more than we can get for his work. I for one would willingly, gladly meet the demands of the union if the condition of the trade would warrant it, and I believe that this kindly feeling is shared by every one of the employers in the city."

The Farther Lights society of the First Baptist church will meet this evening at the home of Miss Charlotte Martz, 15 West Jefferson street. The subject will be on missionary work in India, and all young ladies are invited.

KNOX ACCEPTS IT

PITTSBURG LAWYER TO GO IN THE CABINET.

WILL BE ATTORNEY GENERAL

HIS COMMISSION SIGNED BY THE PRESIDENT.

THE PRESIDENT'S JOURNEY

SOME DETAILS OF HIS TRIP ARE DISCUSSED.

Washington, April 5.—The president made the first announcement that Mr. Knox had accepted the post of attorney general to the cabinet today.

His commission, which is dated today, was signed immediately after the president had informed his advisors of their new colleague's acceptance.

Secretary Hay submitted to the cabinet the Russian communication referred to in a previous dispatch, and the news was accepted as an indication that the tension in the far east would be relieved. The major portion of the time of the meeting was consumed in a discussion of the civil service in the various departments. This matter came up apropos of the president's conference with members of the civil service reform league yesterday. Each of the cabinet officers gave his experience with the law.

There was an informal discussion of the report that Governor Allen, of Porto Rico, is to resign upon his arrival here, but no one appeared to have any definite information as to Governor Allen's intentions, although the opinion seemed to be that his resignation would cause no surprise.

THE PRESIDENT'S TRIP.

Washinton, April 5.—President McKinley took a long walk after breakfast this morning. He was accompanied by Representative Meyer, of Louisiana, who had called to talk with the president about his stay at New Orleans upon the occasion of his western trip. The president is looking forward to the long tour through the west with great pleasure and speaks of it with enthusiasm.

General Meyer told the president that the plans for his stay in New Orleans had been practically completed. An elaborate demonstration is being arranged.

The city will be decorated appropriately in honor of the visit of the chief magistrate.

According to the present schedule the presidential party will reach New Orleans at 4:30 p. m. May 1. That evening a banquet will be given in the president's honor. At the banquet the president probably will make a brief speech. On the following morning there will be a carriage ride through the city which will include a stop at the Cabildo, the old government building during the Spanish and French regimes.

After luncheon the party will be given a sail along the river front.

The departure from New Orleans will be made at 6 p. m., May 2.

REMINDERS OF EARLY DAYS

WORKMEN CAME UPON HUMAN SKELETONS.

In Excavating in Cathedral Square—Location Was a Cemetery Many Years Ago.

In excavating for the sewerage connections for the new Episcopal residence at Clinton and Lewis streets, workmen came upon the crumbling fragments of three human skeletons, and the incident will serve to carry the memory of the older inhabitants back many years to the time when the first Catholic cemetery in this section was located upon a portion of that plat of ground.

The bones were nearly transformed into dust, but had sufficiently resisted the chemical action of the earth to make their nature easily distinguishable. They were carefully collected and removed to the present Catholic cemetery east of the city and again interred.

J. C. Peltier says it has been nearly fifty years since the last body was interred in what is now Cathedral square, though it was for a time the only burial ground here for people of the Catholic faith. The cemetery proper lay east of the present site of Library hall and extended almost to Clinton street, while upon the corner stood a primitive school house. When the Catholic cemetery at the western edge of the city was established all the bodies that could be found were transferred there. The school house before mentioned served as a temporary hospital during the outbreak of cholera in 1849.

PORTO RICANS INTERESTED.

Washington, April 5.—That the report that Governor Allen, of Porto Rico, is to resign upon his arrival in Washington is credited in the island is manifest from the fact that the people of the island are already making representations to the president regarding his successor. Venceslao Borda, who is chairman of the Porto Rican commission, which recently came to Washington to protest against the Hollenden tax law, has written to the president on behalf of the commission suggesting Francis H. Wilson, the present postmaster at Brooklyn, N. Y., as a successor to Governor Allen. In offering Mr. Wilson's name to the president Mr. Borda, who is in New York, says he is obeying instructions cabled to him by the executive committee of the Merchants', Planters' and Bankers' association of Porto Rico.

FARMERS PURSUE ROBBERS

WHO MADE A WANTON ATTACK ON A FARM HOME.

Miscreants Believed to Be Those Who Robbed the Bank at Chardon, Ohio.

Little Mountain, Ohio, April 5.—A large posse of farmers, armed with shotguns and accompanied by dogs, is today searching the surrounding country for three men who late last night riddled the house of John Lemon with bullets. While Lemon and his family were entertaining some neighbors, three men, supposed to be members of the gang that robbed the Chardon bank Wednesday night, rapped at the door of the Lemon home and asked for food and drink. Upon being refused the strangers drew revolvers and began to fire rapidly into the house.

One bullet ripped through Lemon's coat, between his arm and his body. More shots followed in rapid succession, the bullets crashing through doors and windows, breaking pictures and lamps.

Lemon and his guests were unarmed and all made a hasty retreat by a rear door, clambering over fences and through fields to a neighboring house.

At daybreak Lemon returned to his house to find his household effects turned topsy-turvy and $100, all the money he had, missing. Meanwhile the country for miles around had been aroused and farmers turned out with their dogs and guns.

It is supposed that the robbers lay hidden in some barn or in one of the many thickets or gullies in this section all day yesterday.

The country is now so thoroughly aroused that there is good reason for believing the men will be captured.

The searchers are in a dangerous temper and will not hesitate to shoot down the desperadoes on sight if they make any move to resist.

Little Mountain is four miles east of Chardon.

Subsequently many of the farmers who joined in the search for the marauders returned to their homes without having found any trace of the trio. It is feared the men have escaped.

TWO SUSPECTS ARRESTED.

Chardon, Ohio, April 5.—Two men, arrested at Willoughby on suspicion of being connected with the robbery of the Chardon bank, were brought here today in irons. Blood was found on papers carried by one of the men.

NOT IN THE BIG TRUST.

Denver, Col., April 5.—"There is absolutely no truth in the report that the Colorado Fuel and Iron company is to be absorbed in the steel combination or that the steel combination will secure practical control of our company." That statement was made by J. C. Osgood, president of the Colorado Fuel and Iron company. "It would be impossible for the combination to absorb the company or to secure a controlling interest without my knowledge, and I have heard nothing whatever of any such movement."

The Hunters' Protective association will hold a meeting this evening at Concordia hall, on West Main street.

ARE NOT WORN OUT

KRUGER SAYS BOERS HAVE NOT BEEN WHIPPED.

STAND FOR INDEPENDENCE

WILLING TO SUBMIT ALL TO ARBITRATION.

WILL ABIDE BY THE RESULT

HE MAKES CHARGES AGAINST GREAT BRITAIN.

New York, April 5.—A dispatch to the Herald from Paris says:

An interview with Mr. Kruger appears in the Matin. The former president of the Transvaal was seen in a modest little inn at Utrecht, where he is stopping for the moment. His eyes have been very much improved by recent operations and he can now dispense with spectacles.

Mr. Kruger began by announcing that on Saturday next he proposed retiring into the country for complete rest. The little village of Hilbersum, not far from Utrecht, has been selected for his abode.

Nothing has yet been decided regarding his trip to America. He will undertake the journey if his strength permits and if there is any hope of gaining advantage for the Boer cause.

Mr. Kruger expressed his willingness to submit all questions entirely to the arbitrament of an impartial tribunal, not even excepting the question of independence.

"We would sacrifice our liberty," he said, "if the verdict of arbitration decided that one or other of the republics had done anything to forfeit it. But on that point we are at ease.

"The South African war has been on the part of the English a perpetual defiance of the Geneva convention. To a much greater extent than their refusal to accept any intervention is their defiance of The Hague convention."

Referring to General DeWet's raid into Cape Colony, Mr. Kruger denied that it was ever hoped to provoke a general uprising.

"We knew perfectly well that this would be impossible," he said, "because of the lack of munitions and arms, as well as the difficulty of combined action over such enormous distances. But the invasion demonstrated that the Afrikanders were everywhere favorable to our cause and ready to afford all help in their power.

"President Steyn and General DeWet, however, had a different object in view, and they attained it. They were able to obtain plentiful supplies of food and horses. Moreover, these brave allies operated a diversion, which allowed General Botha to escape from a tight position in the east of the Transvaal. They compelled the English to spread their forces over the enormous distances and to recognize the fact that the Boers were masters in the field.

"These results are surely not to be despised. The English cannot be masters of the two republics; they are not even undisturbed at the Cape and in Natal."

Mr. Kruger next dealt with the question of the mines where work is now said to have been resumed. He declared that so long as he was master in Pretoria the mines were safeguarded and work was continued.

"It is only since the British occupation that property has deteriorated and all that work has ceased. Everybody should know that as long as we could we remained faithful guardians of this international trust, carrying our scruples so far even as to respect the mines, which are the cause of all our misfortunes."

In conclusion, Mr. Kruger declared that, far from being exhausted, the Boer commanders were able to go on fighting indefinitely.

"We have combatants, arms and ammunition in sufficient quantities It is useless to hope to reduce us by lassitude or extermination."

ESCAPED THE DUTY.

New York, April 5.—The Ward line steamer Mexico has arrived from Havana, where she was detained for more than two days beyond her usual sailing day in order to take the earliest advantage of the new law abolishing the export duty on tobacco and cigars. Very little tobacco or cigars were shipped from Cuba during the month of March, shippers holding back for April 1, when the export duty was taken off. The Mexico, the first ship to sail from Havana on April 1, was loaded to her fullest capacity, and brought 13,984 bales of tobacco and 1,190 cases of cigars and cigarettes, said to be the largest cargo brought by any one steamer from Havana to this port.

ENGINEER WAS KILLED.

Cleveland, O., April 5.—As a result of a freight wreck on the Wheeling and Lake Erie road near Jewett, O., early today Eigneer Fisher of the train and an unknown man who was in charge of some stock cars were killed. A brakeman was also slightly injured. The wreck was caused by the engine striking a large rock that had fallen from the embankment in a deep cut.

A FATAL AFFRAY.

Chicago, April 5.—A special from Washington, Ind., says: During a fight last night at Odon, seventeen miles north of here, Harley Lamb, 17 years old, killed Walter Correll, aged 22, cutting his throat from ear to ear. Both were of prominent and wealthy parents. Lamb is under arrest.

FINDS A NEW PRESERVATIVE

IMPORTANT DISCOVERY OF A BUTTERMAKER.

Will Preserve Butter and Meats Without Injury or Distasteful Effects.

[Correspondence of Associated Press.]

Copenhagen, March 25.—A Danish butter maker has discovered a new preservative which excels everything in that line heretofore known. By means of this preparation it is possible to preserve butter, meats and all kinds of perishable merchandise.

Experiments show that butter, for instance, can be preserved, melted and cooled off again without losing any of its freshness. It can also be placed among goods that are decomposing or contain rank odors without being affected. The preparation is not injurious from a sanitary point of view and will, it is believed, create a revolution in the shipping of perishable merchandise.

The close commercial relations between the United States and Denmark constantly bring up new interests in different fields and new goods are constantly added to the list of imports. Recently the large landed proprietors have commenced to introduce American quail on their estates.

The Danish quail is a migratory bird, and for that reason the Danes wish to get a variety that remains all the year round, which the American quail does. Among those having purchased a large number of the birds from the United States are Count Frijs and Baron Reedts-Thett, former premier of Denmark.

OFFERED PLACES IN ALASKA

MR. AND MRS. WILLIAM A DAVIS MAY GO.

Were Formerly Allen County Educators and Are Well Known in Fort Wayne.

Mr. and Mrs. William A. Davis, formerly prominent in school work in Allen county and well known in this city, have been offered substantial government positions in Alaska, in which to continue their educational labors.

Mr. and Mrs. Davis are now connected with the Bennett academy for white students at Clarkson, Miss., of which Mr. Davis is president. The department of the interior, through its bureau of education, has just tendered Mr. Davis an offer of the superintendency of the government schools at Unalaska, Alaska, with a place for Mrs. Davis as assistant. The positions carry with them very fair salaries, but they have not yet decided upon an acceptance.

The Bennett academy closes May 24 and Mr. and Mrs. Davis expect to arrive in Fort Wayne about June 1 to spend some weeks with friends in this vicinity.

PISTOLS AND SWORDS.

New York, April 5.—A dispatch to the Herald from Nice says: A duel has taken place between Count Tarnowski and Lieutenant Colonel Tolstoi. At first two shots were exchanged and then the combat continued with swords. Count Tarnowski was wounded in the forearm.

CONDITIONS IMPROVING IN ISLAND OF LUZON.

Manila, April 5.—7:05 p. m.—Aguinaldo, composing his manifesto to the Filipino people, spends hours consulting a dictionary. The manifesto is not yet finished.

Promising gold discoveries are reported from the Island of Masbate (close to the southern extremity of Luzon).

The collier Brutus has arrived here from Guam and reports that the Filipino prisoners there are in excellent health.

The investigation into the commissary scandals is progressing and those civilians implicated therein will soon be tried.

INSURGENTS SURRENDER.

Washington, April 5.—The navy department this morning received the following cablegram from Admiral Remey, at Cavite:

"Goodrell, at Olongapo, on the 4th concluded surrender of insurgents in country from Iba to Morong (Moron?)."

The territory referred to in Admiral Remey's cablegram is a stretch of land fifty miles long, from Morong, just below Subig bay, to Iba, a point nearly forty miles up the coast in Zambes province, a portion of the country which has caused no end of trouble to the American forces. General Greely said today that the signal corps had at least a dozen sharp fights in this vicinity while endeavoring to maintain open telegraphic communication with Manila. The insurgents finally became so aggressive that General Greely decided to have a cable laid from Olongapo, in Subig bay, which is the site selected for the new naval station in the Philippines, to connect with Manila on account of the difficulty in maintaining telegraphic communication overland.

The laying of the cable is now in progress. Lieutenant Colonel Goodrell, United States marine corps, has been in charge of the marines at Olongapo. The news that this troublesome portion of Luzon has been pacified is hailed with satisfaction by war department officials.

SAILS FOR MANILA

San Francisco, Cal., April 5.—The transport Kilpatrick will sail today for Manila with the headquarters' battalion of the third battalion of the first infantry, consisting of Companies K and L, the headquarters, staff and band and companies I and M, of the Eleventh infantry; company A, of the Tenth infantry; troop G, of the Fifteenth cavalry, one assistant hospital steward and six privates.

The passengers will include a surgeon's staff, consisting of Major General Arlington Pond, Major Robert H. Zunare, Major Walter Whitney, Captain Thomas W. Jackson, Captain W. T. Turner, Carl L. Clifford, Victor Emden and Miss Estelle Hine and Miss Edith Richmond, nurses. Tomorrow the animal transport Aztec is scheduled to sail for Manila with 472 horses.

The Ohio, now at the Union Iron works, is scheduled to sail on the 13th, the Logan on the 15th and the Warren on the 20th. Nearly 500 men are at work on the Warren under rush orders and repairs on the vessel are in progress day and night in the hope of having the transport ready to sail on schedule time.

The annual concert to be given by the Linden quartet at Wayne street M. E. church on April 12 promises to be one of the most notable musical events of the year in this city. The program as arranged is of unusual excellence. Assisting the Linden quartet will be Mrs. F. E. Stouder, organist; the Haydn quartet, the Apollo quartet, and Herman Tresselt, violinist.

Miss Florence Bricker, of 25 Oliver street, left today for Cadillac, Mich., for a visit with the family of her brother, Frank Bricker, and other friends.

REMAINS OF CHARLES A. MUNSON REACH THE CITY.

DIED AT CHICAGO THURSDAY

MANY YEARS A PROMINENT FORT WAYNE CITIZEN.

FUNERAL TO BE HELD SUNDAY

BRIEF SKETCH OF HIS ACTIVE AND USEFUL CAREER.

All that is mortal of Charles A. Munson rests once more at his old home, among friends who knew him best and loved him most. The remains of the well-known citizen, whose death at Mercy hospital, Chicago, was briefly noted in The Sentinel Thursday evening, arrived in Fort Wayne over the Pennsylvania railroad at 4:15 this afternoon, and were removed to the residence of his sister, Mrs. Diederich Meyer, at 22 West Wayne street.

The news of Mr. Munson's death caused profound sorrow throughout this city, for during long years of residence here—years of prominence in social, business and public life—he had formed the widest acquaintance, and his splendid nature had drawn men toward him in the bonds of a cordial friendship as unwavering as his own sunny nature. Few men, indeed, have been more universally known and more highly regarded by every class of people than he whose passing has come as a profound shock to the people of this city.

For two weeks Mr. Munson had been suffering from a disease of the bowels. It was but the recurrence of previous trouble of the same nature, and though the matter of a surgical operation was discussed on former occasions, he had apparently recovered and it was hoped there would be no recurrence of the trouble. The most recent attack proved more serious than any that had preceded it, however, and on Monday his stepbrother, W. P. Cooper, was called to Chicago. Later Dr. M. F. Porter was called in consultation, and as the only means that offered hope for the patient, an operation was performed at Mercy hospital Wednesday by Dr. Andrews, of Chicago, and Dr. Porter.

Mr. Munson withstood the operation fairly well, and though his condition was recognized as extremely critical, it was believed that he would recover. Thursday morning, however, at a time when it was hoped the patient would begin to manifest indications of substantial gain, there came a change for the worse. The most eminent professional skill could not stay the encroaching weakness, and the gradual decline continued. By noon Thursday hope had to be given over, and Mr. Munson slowly sank until he peacefully breathed his last at 2:23 o'clock. Among those at his bedside were his sister, Mrs. Diederich Meyer, and his brother, William P. Cooper.

NATIVE OF FORT WAYNE

Charles A. Munson was fifty-eight years of age. He was born in Fort Wayne March 27, 1843, the son of James P. Munson, who came from Wolcottville, Conn., to Fort Wayne in 1840 and engaged in the mercantile business. His wife was a native of Tyrone, Ireland, where she was born in 1813, but came to America with her parents when but six years of age, living for a time in western New York, and later moving to Hamilton, Ohio.

At the latter place, in 1830, their marriage occurred, and to this union two children were born—Lucretia (now Mrs. Diederich Meyer) and Charles A. Munson. The father's health failed, and after eight years of residence in Fort Wayne the family removed to the east, where Mr. Munson soon died. After the death of her husband Mrs. Munson was united in marriage to Hon. Henry Cooper, of this city. One child was born to them—William P. Cooper, now a leading Fort Wayne insurance man.

Henry Cooper died March 26, 1853, and Mr. Munson's mother was again left with her little family to be supported by her needle. Young Charles' opportunities for obtaining an education were limited, as necessity made busy his youthful years, and the sturdy young lad bent every energy in assisting his widowed mother.

YOUTHFUL YEARS BUSY.

Young Munson's first employment was as messenger boy in the telegraph office. Afterward he became a clerk at Hamilton's boot and shoe store, and later at Kurtz's and Heller's grocery and provision stores. During several winters, when no other employment presented, the young lad sawed and split wood for the merchants and other citizens of the city. His industry and indefatigable determination attracted the attention of George L. Little, of the old commission house of McCulloch & Little, and he took a position as a buyer of grain and provisions for that firm.

ENLISTED IN THE NAVY.

The progress of the civil war fired the patriotic spirit of the young business man, and he resigned his position to enlist in the United States navy August 13, 1862, under Capt. Robert Getty, at Cincinnati. His sterling qualities were quickly recognized, and he was soon promoted from the grade of landsman to able-bodied seaman. In December 1862, Munson was ordered to join the ironclad Chillicothe, then engaged in defending the city of Louisville from an expected attack by the Confederate General Bragg.

A little later the Chillicothe was ordered to Vicksburg, and at this point he served for a time on the United States steamer Red Rover. Merit was again recognized, and after an examination by Captain E. Randolph Breeze, and upon recommendation of Captain St. Clair, of the Chillicothe, and Captain Wells, of the Red Rover, Munson was commissioned master's mate and made third officer in command of that vessel. Mr. Munson was then but 20 years of age. After the fall of Vicksburg and the opening up of the Mississippi river the young man resigned his commission and returned home.

IN BUSINESS AGAIN.

Late in 1863 Mr. Munson went to Stevenson, Ala., to take a fine position in the employ of Captain P. P. Baily and Nellie Borden, sutlers in the army of the Cumberland.

Returning to Fort Wayne at the close of the war Mr. Munson embarked in the retail grocery business, continuing until 1868, when he entered the emloy of Huestis & Hamilton, wholesale grocers, as a traveling man. This position he held for eight years, the latter half of that time as a partner of the firm, and his territory extending over large portions of Indiana, Ohio and Illinois. Mr. Munson was eminently successful, his annual sales exceeding $200,000. His genial, jovial nature and splendid business qualities here again contributed very largely to his success.

IN PUBLIC LIFE.

Mr. Munson took an active interest in public affairs, and he had a marvelous faculty of making and retaining friends. Political friends besought him to enter politics, and in 1875 Mr. Munson was elected a member of the city council upon the democratic ticket. During his term of office he held the chairmanship of the committees on finance and public printing.

At the democratic county convention in June, 1876, Mr. Munson received the nomination for sheriff on the ninth ballot, over eight opposing candidates, and at the succeeding election was victorious. He was renominated in 1878, and was reelected by a majority of 4,370 over his highest competitor, that being 593 votes ahead of the state ticket, and probably the largest majority ever given a sheriff in Indiana. As an officer of the county Mr. Munson displayed courage and discretion, and was never wanting in the performance of his duties.

But a still higher place appealed to him, and in 1886 Mr. Munson received the democratic nomination for auditor of state, but went down to defeat with the rest of the ticket by a small majority. In 1888 he was renominated and made a vigorous canvass of the state, but his zealous work for his party again proved unavailing, though it won for him a wide popularity and an extended acquaintance all over the state.

HIS LATER CAREER.

Retiring from the political field, Mr. Munson again entered business life as a member of the firm of Lillie & Munson, manufacturers of Huntington white lime. This continued until about eleven years ago, when he retired to become Chicago representative of the Fort Wayne Electric works, a responsible position which Mr. Munson retained until his last illness seized him.

During this time he has been occupied at Chicago, where he lived at the Lexington hotel, but retained Fort Wayne as his residence, owning property interests here and making frequent trips to the city of a business character and to renew the friendships of a lifetime. Mr. Munson never married, and in this city made his home with his sister, Mrs. Diederich Meyer.

Mr. Munson stood high in Masonry, having advanced to the 32nd degree. He was a member of Summit City Lodge 170, F. & A. M.; of Fort Wayne Commandery No. 4, Knights Templars; of Fort Wayne Lodge of Perfection, and of Indiana Consistory, Scottish Rite, of Indianapolis.

The funeral services will be held on Sunday afternoon and will be under the auspices of the Knights Templar. The exact hour has not yet been determined.

TRADES COUNCIL FAIR.

Next Wednesday night the Trades council fair will be inaugurated at the Saengerbund building and from all indications it will be a great success. The general committee held a meeting at the city hall last night and reported all arrangements completed and nearly all the available floor space for booths sold. Wolff Bros. will erect one of the finest booths to be seen, although many other merchants will make excellent displays. There will be many novelties and some great surprises will be sprung on the public when the fair opens. Every trades union in the city is taking an active interest and the ladies are busying themselves in making fancy pieces for sale. There will be an abundance of music every night and many new features never before seen at a fair will be introduced.

WERE WEDDED THURSDAY.

Henry W. McMaken and Miss Jessie M. Freck were united in marriage at 4 o'clock Thursday afternoon at the residence of and by Rev. J. C. Breckinridge, 425 West Main street. The bride is a daughter of Henry Freck and both Mr. and Mrs. McMaken are well known and highly respected young people of Wayne township. Numerous friends will extend warmest congratulations. The newly wedded couple will reside upon the McMaken homestead west of the city.

WE GIVE NO REWARDS. An offer of this kind is the meanest of deceptions. Test the curative powers of Ely's Cream Balm for the cure of Catarrh, Hay Fever and Cold in the Head and you are sure to continue the treatment. Relief is immediate and a cure follows. It is not drying, does not produce sneezing. It soothes and heals the membrane. Price 50 cents at druggists or by mail. Ely Brothers, 56 Warren Street, New York.

Made A Great Hit

The announcement a week ago that George Streicher, of the Aveline barber shop, had returned from the east, where he had taken a course of instruction in face massage, under one of the leading dermatologists of the country and was prepared to administer it scientifically to his patrons, was highly appreciated. All who have taken the treatment express themselves as more than delighted with the results obtained. Mr. Streicher has been at great pains to thoroughly instruct all his workmen, who are now equally qualified to give the same scientific treatment as can be obtained at the best shops in the eastern metropolises. Mr. Streicher was the first to introduce the compressed air system in Fort Wayne and in this connection it is proper to state that all improvements in tonsorial service that are worth having can always be found at the Aveline shop; worthless experiments and unbeneficial fads he does not bother with. Massage treatment, removing sunburn, freckles, blackheads or blemishes can be obtained from competent and experienced operators at all times.

FORMER FORT WAYNE MAN NOW IN CALIFORNIA.

Israel Messler on the Pacific Coast, Where He Will Shortly be Joined by His Brother.

Anent the suit commenced a week ago by Mrs. Israel Messler, asking for a division of the property and an accounting by her husband, who has gone west, the following from Thursday's Huntington Herald may be interesting:

"Some weeks ago, it will be remembered, the Herald gave an account of the peculiar disappearance of Israel Messler from the vicinity of Fort Wayne. He had been in this city transacting business and was well known here for a number of years. It was learned that the disappearing man's business affairs had been settled up by his brother, Rev. Amos Messler. It so happens that the minister's wife is now in this city, visiting at the home of her sister, Mrs. Ed Powers. She says it was $13,000, instead of $12,000, that Israel took with him and he is now in California. His wife is still a resident of Allen county so far as known.

"Mrs. Amos Messler says her husband was not responsible in any way for Israel's departure, but looked after his business affairs and accompanied him to the home of their brother George, in Nebraska, where Amos has located. He will be joined by his wife and son Clarence in the course of ten days or two weeks."

Mr. J. Pierpont Morgan is stated to have recently taken a profoundly patriotic interest in strengthening the national finances. It has been noted that whenever J. Pierpont becomes genuinely alarmed about the state of the government cash he adds another cipher to the right side of his exhibit of assets.

It is not often the such strenuous means are adopted to bring a guest of honor to the board as were employed to get Aguinaldo within receiving distance of our hospitality.

The latest British casualty list from South Africa proves that if Boer resistance is on its last legs that section of its underpinning is neither weak nor weary. Meanwhile the cost to Great Britain does not grow particularly less when measured in pounds.

Either Russian revolutionists are very bad shots or Russian correspondents make very bad guesses. This member of the imperial household, for instance, who fired at the czar and missed—why did he not try again? He had time to kill himself; he must have chosen his occasion very badly if he could not get another shot at his target. And who told about it? This latest story is said to be credible because it comes from Kieff. But the czar has not recently been at or near Kieff, and somebody must have carried the informaton there, since they do not allow these things to be telegraphed from St. Petersburg. We must suppose that some other member of the imperial household rushed off with the news of the attempt on the czar's life and carried it to Kieff If he did, that would be the end of him. Our Russian news comes by way of Berlin or of London, or from Berlin via London, and neither source s very sympathetic. Some of it may be true, but not all of it can be true, and each reader must select for himself what he would like to believe.

Aguinaldo, when enlightened as to what this government's intentions were in the Philippines and informed as to what had already been done, exclaimed: "I never thought the Americans would be so fair." Well, if he thinks so now, he can do a deal to help things along. Aguinaldo is a pretty bright fellow, fairly well educated, has knowledge of western civilization and harbors well-defined and creditable aspirations for free government. There is little doubt that he would be found tolerably competent both as an officeholder and administrator. If American sovereignty in the Philippines is abandoned It will be because the Americans voluntarily leave, and not because the Filipinos drive them out. As the United States is there to remain at least indefinitely, Aguinaldo can help his people to vast profit in knowledge of self-government by doing all he can to restore order and assisting the Americans to establish some form of local government in the archipelago. Then if Uncle Sam should some time conclude to hike from the Philippines it will be safe for him to do so. The late leader of the insurrectionist Filipinos would profit much from a visit to the United States and the rumor that he is to come over here ought to be true.

CAPT. REESE STARTS HOME

WITH HIS WIFE HE LEFT SAN FRANCISCO LAST NIGHT.

Received High Commendation for His Work as Mustering Out Officer for the Thirtieth.

Captain and Mrs. Charles E. Reese left San Francisco last evening on their homeward journey. They will travel slowly and will stop for short visits at Salt Lake City, Denver and Kansas City and are expected to reach Fort Wayne in about two weeks. When the transport left Manila with the Thirtieth regiment Captain Reese was placed in charge of the muster rolls and when he arrived at San Francisco he was appointed mustering out officer. His work was very arduous and he completed his task only on Sunday last. He put in two days more making his report and on Wednesday evening was mustered out, receiving the highest commendation from the ranking officer at the Presidio for his faithfulness, industry and the intelligent manner in which he discharged all his duties. In a letter to his father received yesterday he said that he had no plans for the future, but would take a short rest and would then decide on his future course.

ABOUT THE CITY HALL.

There was no police court this morning.

Peter Eckrich has been granted a permit to erect a brick residence at the corner of Francis and Lewis streets, to cost $3,000, and Ruth L. Greer has been granted a permit to build a frame residence on Erie street at a cost of $600.

Among a number of prisoners paroled from the penitentiary at Michigan City are a man named Harshberger, from Fort Wayne, and Jim Jacobs, sent up for two to twenty-one years for burning the City Trucking company's barn several years ago. Jacobs says he will come direct to Fort Wayne.

The last smallpox card in the city was taken down yesterday. There are now only eight houses quarantined for contagious diseases of all kinds.

At the meeting of the board of works held last evening the Harrison street tunnel matter, which was to have been taken up, was again postponed on account of the absence of City Attorney Shambaugh. Mr. Shambaugh informed the board yesterday afternoon that he was called from the city and it was his desire that action on the matter be postponed for one week. The Wabash people were not represented, which makes it look as though they propose to meet the matter in the courts and then perhaps secure a compromise. The board of works, however, says that the crossing will be put through and that the Wabash can make better terms now than they can later, as the law is decidedly on the side of the city.

M. L. Jones and sixty-four others asked for a cement sidewalk on Wayne street, from Calhoun street to College street, and it is probable that the petition will be granted and the improvement ordered. This will be a great improvement and one that will be likely to be followed at many other places in the city where new sidewalks are needed. In the city of Logansport there is an ordinance that all sidewalks shall be of cement, and the result is that Logansport has the best sidewalks of any city in the state of Indiana. These sidewalks will probably be built to a width of six and one-half feet.

Plans and secifications for a pavement on Hanna street from Wayne street to Creighton avenue were also approved and an improvement resolution was . The street will be paved to a uniform width of thirty feet and four different kinds of material will be advertised for. It is understood that the residents generally prefer brick. The improvement will be over a mile in length and will constitute the biggest job of the year, although other streets will be paved which will make the aggregate to be paved this year somewhere in the neighborhood of three miles.

FOR MUNICIPAL LIGHTING

LARGELY SIGNED PETITION IS FILED TODAY.

Want Popular Opinion of Matter of a Municipal Lighting System at Once.

More than 1,000 Fort Wayne voters have signed a petition asking an opportunity for the people to vote upon the question of the construction of a municipal lighting plant at once, without waiting for the expiration of the Jenney company's contract with the city for street lighting.

This petition, which has been circulated under the auspices of the social democracy and signed by 1,045 voters, was filed today with the city election commissioners—Henry B. Monning, W. P. Breen and F. J. Woodworth. Emmett Martin filed the document, which reads as follows:

"The undersigned freeholders, citizens and voters of the city of Fort Wayne, respectfully ask that at the next spring election for city offices, which will occur in the spring of 1901, a ballot be prepared to vote on the following proposition, to-wit:

"'Shall the city of Fort Wayne, Indiana, build and equip at once suitable plants for the purpose of furnishing electric lights for private residences and consumers; these plants to have ample provision to light the streets when the street franchise with the present electric company expires.'"

Mr. Martin, who filed the petition, states that it has been readily signed without question, and he has been given assurances that there would be no hesitancy upon the part of the election commissioners in providing for the vote upon the subject.

ADJUTANT HITE SURPRISED.

Friday evening Commander A. W. Pierce, of Sion S. Bass Post, with a detachment of veterans representing every department of the military service from 1861-1865, went out upon a foraging expedition and during the raid got into the commissary department of the adjutant, H. T. Hite, of 131 Broadway, and partook of what he had in store. It was a complete and very enjoyable surprise. Mr. Hite has been traveling life's journey for 59 years, and his comrades did an excellent job of celebrating the anniversary. Music, vocal and instrumental, preceded the refreshments, and an old-fashioned smoker followed. A number of valuable presents were given the host, and the comrades parted at a late hour after extending congratulations.

GREAT MORTGAGEE SALE OF THE JAMES TAFT STOCK

of Dry Goods, Cloaks, Suits and Millinery, Beginning Tomorrow Morning and Continuing Until $13,000.00 Has Been Realized.

Mr. Taft's creditors were clamoring for cash; to satisfy a large part of them, he was obliged to raise the above amount of money and secure the same by chattel mortgages on his stocks. This amount must be realized at the earliest possible moment.

Thousands of dollars worth of high-grade dry goods, notions, cloaks, suits and millinery must be disposed of irrespective of cost, value or price for which they were formerly sold. Knowing just how much of a rush there will be, we advise you to come in the mornings if possible. No similar dry goods event of the past, no matter how conspicuous it may have been for its money saving, has in any way equaled this. Many items that you will see priced in this sale will be recognized as having been offered for 1-3 to 1-2, and double the price placed upon them now.

QUEEN IN A BLOODY DUEL

OKLAHOMA MATRONS FIGHT A BLOODY BATTLE.

Revolvers Used at Twenty Paces Result in the Wounding of One Female.

Newkirk, Okla., April 5.—Mrs. Ella Seiglin and Mrs. Daughson, living near this city, fought a duel with revolvers at twenty paces Wednesday, and Mrs. Seiglin is now in a hospital, dangerously but not necessarily fatally wounded. Two of her opponent's shots lodged in her breast, but she is able to talk volubly and is anxious to recover in order that she may again fight Mrs. Daughson.

The duel grew out of a long-standing feud between the women, jealousy being the original cause. Mrs. Daughson lives on a farm just south of the city and Mrs. Seiglin has frequently traveled that way to arouse the temper of her neighbor by various means, the most effectual being the claim that she (Mrs. Seiglin) could take Mrs. Daughson's husband away from his wife any time she wished.

APPEALED TO THE COURTS.

Mrs. Daughson finally appealed to the courts, and Wednesday forenoon Mrs. Seiglin was fined $300 for trespassing upon the Daughson property and inciting trouble. As soon as she paid the fine Mrs. Seiglin drove out to the Daughson home, smarting under the loss of money and the criticism of the trial judge. Riding up to the door of the Daughson home, she dared her rival to come out and fight a duel.

Mrs. Daughson promptly accepted the challenge and came out, armed with a double-action revolver. Mrs. Seiglin alighted from her buggy and tied her horse. The women then faced each other at fifty feet and began shooting, the signal being given by a daughter of Mrs. Seiglin, who had accompanied her from town. Each fired three shots without effect. Then Mrs. Daughson got the range and fired two shots in quick succession, both striking Mrs. Seiglin in the breast. She fell, and Mrs. Daughson assisted in carrying her into the house, where a physician dressed her wounds, after which she was conveyed to a hospital.

HUSBANDS LIKELY TO FIGHT.

Now the husbands of the women are seeking each other, vowing to kill on sight. The partisans of each woman are also burnishing up their weapons and seeking an excuse to shoot somebody. During the trial Wednesday the two women attempted several times to fly at each other and fight it out then and there, and the belligerent spirit permeated the entire courtroom.

Mrs. Seiglin says her revolver refused to work after the first three shots and that she will make a better record when next she faces Mrs. Daughson. The latter has not yet been arrested and grimly remarks that she has taken the precaution to reload her revolver and oil its joints, and that she can be found at home by anyone looking for an argument.

BRAIN FOOD

Is of Little Benefit Unless It is Digested.

Nearly everyone will admit that as a nation we eat too much meat and too little of vegetables and the grains.

For business men, office men and clerks, and, in fact, everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruits and vegetables should constitute the bulk of food eaten.

But many of the most nutritious foods are difficult of digestion and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years' experience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ, but only on the food eaten. They supply what weak stomachs lack, pepsin diastase, and by stimulating the gastric glands increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion, which means perfect health.

There is no danger of forming an injurious habit, as the tablets contain absolutely nothing but natural digestives; cocaine, morphine and similar drugs have no place in a stomach medicine and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies.

Ask your druggist for a fifty cent package of Stuart's Dyspepsia Tablets and after a week's use note the improvement in health, appetite and nervous energy.

We receive your money cheerfully and give it back just as cheerfully if a purchase is not satisfactory.

DEATH ENDS LONG ILLNESS

MRS. CAROLINE W. PHILLIPS IS NO MORE.

Well Known Lady a Resident of Fort Wayne Since 1853—Other Mortuary Matters.

Mrs. Caroline W. Phillips, for many years a resident of this city, widely known and most highly esteemed, died at 7:15 o'clock this morning at her home, 121 West Main street.

Mrs. Phillips' illness had been an extended one, and while many of her friends knew of her failing condition, the news of her death will cause sorrow no less poignant, for during a residence of nearly fifty years in Fort Wayne Mrs. Phillips had won a multitude of steadfast friends, who recognized and admired her sterling qualities and her lofty character.

Mrs. Phillips was nearly sixty-seven years of age. She was born at Zadelsdorf, Saxe-Weimar, Germany, May 29, 1834, and with her parents, the late Charles G. and Erdmutha Vogel, she came to Fort Wayne in 1853. Five years later she was united in marriage to Bernard Phillips, for many years a prominent Fort Wayne business man, who died October 28, 1876.

Surviving are a daughter, Mrs. William P. Breen, and a son, Frank B. Phillips. The deceased was a devoted member of the Cathedral congregation and the funeral services will be held from the Cathedral on Tuesday morning. It is the wish of the family that no flowers be sent.

BURK.

Marie Burk, the little daughter of Mrs. Mary Burk, of 99 Green street, died at 9 o'clock Thursday evening from scarlet fever at the aged of 7 years, 1 month and 16 days.

The father of the little girl met his death but a short time ago in an accident on the Pennsylvania railroad at Lima, O.

The remains will be shipped to Chambersburg, Pa., tomorrow, for interment.

MELICK.

Gladys Melick, an inmate of the Indiana school for feeble minded youth, died at that institution Thursday night, at the age of fourteen years, three months and twenty-seven days.

The remains were today shipped to Spencer, Ind., for interment.

NEW ARTILLERY REGULATIONS

Washington, April 5.—Secretary Root has been considering the subject of artillery regulations for the corps. The reorganization act provided that the secretary should prescribe regulations, and under this clause he has sought information from the army officers qualified to make suggestions. He has requested the views of colonels of artillery and most of these have been received and are now being considered. When the regulations are formulated and adopted the chief of artillery will be named, and two additional officers selected for members of the ordnance and fortifications board. Several colonels of artillery have indicated their disinclination to serve as chief of artillery, as the selection carries with it no additional rank or pay and every colonel is now in command of some post, a more pleasant duty than can be found as chief of artillery stationed in Washington and directly subordinate to the officers in the department with the whole responsibility of the corps on his hands.

NEWS OF THE DIAMOND

Indianapolis was first in the game in the Western association. Watkins' men played an exhibition game with Buffalo yesterday and the Hoosiers were defeated by a score of 9 to 4. The weather was good, but the crowd was small. Last year Fort Wayne beat Buffalo two games and Buffalo went direct to Indianapolis and skinned Watkins' club two games.

Hon Fricken has discovered a wonder down east and Manager Miller instructed him to sign him and bring him along. The newcomer's name is Mally. The Fort Wayne players have all been ordered to report here by the 7th instead of the 10th.

Columbus is in another batch of trouble. After looking for a manager for two weeks Frank Motz, an excellent man, was finally selected. Yesterday Motz telegraphed the Columbus club owners that he would have to cancel his engagement. The Columbus men are now in a bad way for a manager with the opening of the season less than three weeks off.

The Ohio-Pennsylvania-West Virginia league died a-bornin' and has been abandoned. Wheeling with its $10,000 stock company has concluded to abandon the game this season.

President Meyer has ordered league umpires to report to him April 23 for a feet to face talk. He will insist on all the rules being strictly enforced from the first day, and if the staff selected can't do it he proposes to get one that will.

Strobel has ordered all his men in by Monday and active practicing will be commenced on Tuesday.

Manager Armour has his team collected and practice was commenced yesterday morning. The Daytons will play their first game with Buffalo on Sunday next.

Bey and Shannon, two new men at Indianapolis, are left-handed batters and usually are half way to first by the time the bat hits the ball.

Pitcher Poole, the phenom of last year's Wheeling team, now with Pittsburg, may be released or farmed out, along with Wiltsie. Clarke has a strong quintet in Tannehil, Leever, Chesbro, Phillipi and Waddell, and cannot carry more than five pitchers.

A number of National and Western clubs have already commenced playing ball and from everyone comes a loud and unanimous kick against the new playing rules. The rule calling all but the third foul a strike and the hitting of a batsman a ball are particularly obnoxious and it is predicted that those two rules at least will be annulled before the season opens.

GOOD FRIDAY OBSERVED.

In the Lutheran, Catholic and Episcopal churches today the anniversary of the tragedy of Calvary was remembered and special services were held. In the Catholic churches in observance of the teaching of the Bible that Christ died for all men, special prayers are said for Catholics, Jews, heretics and persons professing their faith in other churches of Christ. After these prayers the crucifix, which has been veiled in black, is uncovered while "The Reproaches" are sung. These are selections from Jeremiah and the prophets. After "The Reproaches" the Sacred Host, which had been taken to the repository on the day before, is brought back to the altar. Mass is not celebrated on Good Friday and no one receives communion. Tomorrow is Holy Saturday and the fire that furnishes the lights used in the churches during the year is blessed. The fire is produced by striking flint and steel. The Paschal candle is also blessed, and it is lighted at each service until Ascension day, forty days after Easter. The water in the baptisimal font is blessed and the ceremony is followed by mass.

ENTERTAINMENT TONIGHT.

An entertainment will be given this evening at Simpson M. E. church and the following program will be presented:

WEST LAKE CLUB IS READY

A SMOKER FOLLOWS THE ANNUAL SPRING MEETING.

Piscatorial Organization Chooses Officers and Talks of Catches It is to Make.

The West Lake club held its annual spring meeting at Turner's hall last night and elected officers for the ensuing year, in addition to generally discussing the situation as it pertains to the piscatorial art. It was unanimously agreed that the coming season gave promise of an abundance of fish, and consequently fine sport for the club members. The following is the official list as selected last night:

President—C. F. Knothe.
Vice President—Henry Weise.
Secretary—Frank C. Kehler.
Treasurer—George Bley.
Trustees—M. L. Jones, Peter Henkenius and Daniel Rehm.

After the regular business of the club the members indulged in a social session, which took the form of a smoker, and was continued until long after the midnight hour.

NEWS GATHERED IN COURTS

In charge of Drs. VanBuskirk and Tinkham, Joseph Brauneisen, the Bloomingdale grocer, was this morning taken to the asylum at Richmond. James Rhine, who escaped from Richmond several days ago, was not taken back, the superintendent telephoning Sheriff Stout to allow him to remain at his home for a while and report his condition to him each week. Rhine accordingly was taken charge of by his father and taken to his home near the east city limits.

The various township trustees will tomorrow meet in Superintendent Young's office to receive instructions concerning the annual enumeration of school children in their respective townships. There are also some important changes in the school law which the superintendent will call to their attention and explain.

Andrew Dornte, the young lad bound over from police court a week ago for the theft of the horse and vehicle from the barn of Sam F. Swayne, was taken before Judge O'Rourke this morning. The evidence was heard and the judge found himself in a quandary. Young Dornte is an exceptionally bright looking lad and is intelligent, but mischievous, and the officers were at first inclined to make an effort to send him to the reform school. It was finally concluded to give him one more trial and after administering a severe reprimand and admonishing him that his next offense would surely land him in a penal institution, or in the reformatory, he was allowed to go. His mother says she believes that his last experience will prove a salutary lesson and that he will be good in the future.

Mary E. Weist sues Horatio Wiest for divorce. The complaint alleges that the couple were married in 1890 and that ever since that time the husband has been improvident. In February, 1899, he abandoned her altogether, enlisting in the United States army, and since his enlistment she has received a total of $4 from him. There are three children, and of these the plaintiff asks the custody.

The case of Morton McComb, administrator of the estate of J. J. Rundel, vs. James Warner, on a note has been venued to Whitley county.

Judge Adair is today hearing evidence in the case of Jesse Grice vs. the United States Mortgage and Trust company. This is an echo from the late lamented J. F. Schell Investment company's collapse.

In the superior court the case of F. X. Miller vs. Herman Heersche, for damages sustained in an assault was dismissed at the defendant's cost. The suit was for $1,000, but was compromised out of court.

In the case of Jameson vs. the Union Life Insurance company the default and judgment was set aside.

George S. Miller was today admitted to the Allen county bar by Judge O'Rourke.

In the case of the state ex rel the state board of medical examiners vs. George LaFollette a dismissal was entered.

Ralph Dunlop, arrested yesterday for embezzlement of collections while in the employ of Charles Littleton, the fish merchant, was arraigned in the circuit court. A plea of guilty was entered and Judge O'Rourke sentenced the young offender to jail for twenty days.

The commissioners today considered ditch matters. In the Bruick ditch in Milan and Jefferson townships H. W. Felts, Daniel Dalman and John Gephart were appointed viewers and in the Fack ditch in Pleasant township the matter is still under consideration.

PROHIBITIONISTS TO RALLY

HOLD A MEETING IN FORT WAYNE APRIL 22.

State Evangelist Van Cleave Will be Present—Organize for the Next Campaign.

Indiana prohibitionists are getting an early start at organization for the next political campaign and say they will work unceasingly in the temperance crusade until that time.

Fort Wayne and Allen county members of the party will hold a rally in this city April 22, both afternoon and evening. The state evangelist, Mr. Van Cleave, will be the chief speaker and in addition to this feature there will be an additional program of music and addresses. The entire county will be reorganized for future political struggles and an attempt will be made to interest every friend of temperance in the movement. The invitation is extended to the public for both afternoon and evening sessions.

IN JUSTICES' COURTS.

Charles Bevenitz this morning filed an affidavit against J. W. Shaw for selling lottery tickets giving the holder a chance in the drawing for a suit of clothes. Mr. Bevenitz is the president of the Tailors' union and it was at the instigation of that body that the suit was brought. Their claim is that these suit clubs multiply as the season advances and deprive local tailors and journeymen of much work. The clubs are a scheme of New York tenement sweat shops and the clothes are all made by non-union tailors. If the clothing was made by Fort Wayne tailors the Tailors' union would not interfere, but as it is the action is taken in the interest of home industries.

WILL TRY FOR IT.

The state encampment of the Grand Army of the Republic will be held at Logansport in May, and Fort Wayne veterans believe that a little well-directed effort will bring the encampment to Fort Wayne next year. The matter will be taken up by the Commercial club at its next meeting.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles.

Mr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

WAGE DISCUSSION

THE CENTRAL JERSEY AND EMPLOYES AT IT.

BROTHERHOODS MEET BOSSES

WANT SCALE FIGURED UPON MILEAGE BASIS.

A CALF HAS FUN ON A TRAIN

BAGGAGE "SMASHER" COULD DO NOTHING WITH IT.

New York, April 5.—There is a conference being held today in this city of the heads of the national organizations of railway employes and the chiefs of organizations of the men employed on the Central Railroad of New Jersey. John D. Waite, of the Brotherhood of Locomotive Engineers; E. Shea, of the Brotherhood of Locomotive Firemen; E. H. Titus, of the Order of the Railroad Conductors; Michael Dolphin, of the Order of Railway Telegraphers, and Joseph Harrison are in session. They all represent the employes of the Central railroad of New Jersey. With them acting in an advisory capacity are the following national officers: P. M. Arthur, chief of the Brotherhood of Locomotive Engineers; F. F. Sargent, grand master of the Brotherhood of Locomotive Firemen; P. H. Morrisey, grand master of the Brotherhood of Railroad Trainmen, and E. E. Clark, of the Order of Railroad Conductors. At a secret conference held yesterday an invitation was sent by resolution to C. H. Warren, second vice president and general manager of the Central Railroad of New Jersey, asking him to be present today and confer with the labor representatives and listen to their grievances. After being in session for an hour today there was a recess to await the receipt of an answer from Mr. Warren. The men are now paid by the day. The request on the part of the conductors, engineers and firemen and other trainmen is that the mileage system be substituted and that 100 miles be adjudged a day's work.

LARGEST IN MONROEVILLE.

The funeral of the late Robert H. Myton yesterday was the most numerously attended of any ever seen in Monroeville. It may be said with truth that nine-tenths of the population of that town turned out and participated in the sad rites in some manner. Sventy-three members of the Brotherhood of Railway Trainmen were in the sad procession from the house to the cemetery. Rev. T. J. Johnson, of the Simpson church, preached the funeral sermon.

SIX CARS WRECKED.

A broken car axle caused six cars to leave the rails two miles west of Warsaw and pile themselves up in a manner that completely blocked the road at that point for a couple hours. The train was eastbound freight No. 74, loaded with grain and general merchandise. The cars derailed with loaded with barley and corn and were broken in such manner that their contents were spilled upon the tracks, adding to the difficulty of clearing the right-of-way of wreckage. Trains No. 8 and 9 were delayed by the accident, but nobody was injured.

LAST QUARTERLY MEETING.

The last quarterly meeting of the Pennsylvania Voluntary Relief association for the fiscal year 1900-1901 will be held in Pittsburg on the 23rd inst. At this meeting the time for the annual election of advisory board members will be fixed and immediately following will come the announcement of candidates for the position. F. G. Olds is the present incumbent. It is not known whether he will try for re-election or not. There will be no lack of candidates.

GOOD FRIDAY AT THE SHOPS.

All the railway and other shops in the city are short of men today because of the great number who laid off in order that they might participate in Good Friday services at the churches of which they are members. The Pittsburg car shops are probably the most seriously crippled in this way. It is estimated that fully 100 men are absent from their work

NOT HEREDITARY

In the main, consumption is not hereditary; it is infectious. People are too afraid of heredity; better not think of the subject at all. Infection occurs continually.

Low vital force is hereditary; which gives consumption its chance. And infection plants it.

Between the two, the crop is a big one: about one-sixth of the human race, so far as is known.

We suppose it needn't be 5 per cent, if people would take fair care and Scott's emulsion of cod-liver oil.

The care saves life in all ways; the emulsion is specially aimed at the lungs, beside its general food-effect.

We'll send you a little to try, if you like.
SCOTT & BOWNE, 409 Pearl street, New York

there. The Bass foundry, the blacksmith shop and the boiler shop are also crippled in a like manner. At the electric works there are not so many men off duty today as would have been were it not pay day at that establishment. They had to report to get their earnings and they, no doubt, concluded that they might as well work.

MORE SERIOUS THAN STATED.

The collision on the Nickel Plate at Erie last Tuesday was a more serious affair than published in the Fort Wayne papers. Two engines were badly damaged and two men were injured, one so badly that he died shortly after the accident. The dead man was Engineer Nelson Howard, who had been employed on the road for a number of years and who was, consequently, quite well known to the trainmen and enginemen over the entire system.

WILD CALF IN BAGGAGE CAR.

The following is a copy of a letter sent to the general baggage agent of a St. Louis Eastern line by a baggage agent in reference to a claim for a broken bicycle:

"In regard to bicycle being broken by calf jumping into it, I would just say that this was a very wild calf, and I could not hold it. So it done about as it pleased and jumped onto this bicycle with both feet, and kicked both tires off, and bent some of the spokes, and calf, bicycle and all went out of the car together.

"These calves are given to us with only a rope around their neck, and sometimes we have ten or twelve of them at once, and it makes a very bad-looking car to put baggage in. Sometimes a valise that is not locked comes open and the clothes are spilled out on the floor, and they are in a fearful shape by the time the calves get through with them.

"I understand that there is an order not to allow calves to be shipped in a freight car without being crated. We have a combination mail and baggage car, and have to put trunks, bicycles and calves together, and they are not crated either."

LEAVES FOR THE WEST.

C. H. Walton, superintendent of the Chicago Terminal division of the Pennsylvania company's lines, who had been resting quietly at his home in this city for four or five days, went to Chicago this afternoon. Tomorrow he will leave for California, where he expects to remain two or three months. There has been no appreciable improvement in Mr. Walton's health since he entered upon his vacation term, but the western trip will undoubtedly bring the relief he seeks.

THE COMING ENGINE.

R. J. Lyons, assistant road foreman of engines of the Pittsburg, is inclined to the belief that the class E-2 pattern of locomotive is destined to supplant all the present style locomotives in the heavy passenger service on the Pennsylvania lines west of Pittsburg. Pennsylvania railroad engine 269, which is of this pattern, has been here a week, running on the heavy passenger runs, and Mr. Lyons has been riding on her and noting the results. He is well pleased with the engine and his experience with her called forth the foregoing predictions as to the future. Mr. Lyons has now turned his attention to the freight service and for several days will ride over the road on engines hauling heavy freight trains.

J. L. PILLING HERE.

James Lowe Pilling, who represents the Railroad Supply company, of Chicago, arrived in the city last night and spent the day with the local railway officials in the interest of the supply people. Mr. Pilling is an interesting character and has quite a remarkable career. He has been engaged in literary work off and on for some years, just as a "side issue," one of his most interesting productions being "The Keel of the Kearsarge." Mr. Pilling figured quite prominently in one of the greatest newspaper scoops on record and he is wont to point to that event with considerable pride. The story, as related by Mr. Pilling, is as follows:

"I will tell you about a newspaper scoop that has never been equaled since 1868, which made one man and one newspaper famous, and, so far as I have been able to ascertain, that scoop has never been equaled since. In the year mentioned I ran away from a ship in Bombay. The British government was chartering everything that would float to carry the necessities of warfare to the Red sea to be transported into Abyssinia, and I, like a chip on the surface, was drawn into the stream and cast up on the beach at Aden, like the rest of the merchandise. Through an accident that happened on shore an ordinary looking man seemed impressed with my gall to such an extent that he hired me as coxswain of a boat to convey whatever messages might be handed to me by relays that were to be established from the seacoast to the seat of war on board of a British man-of-war, which was anchored off shore in the Red sea. This man proved to be Henry M. Stanley and the scoop mentioned was his message to the New York Herald, which I conveyed on board this English man-of-war, from whence it was sent through Europe, over England, across the channel to Ireland, across the bed of the Atlantic ocean through an English wire to the New York Herald, when James Gordon Bennett, sr., repeated the message back to England to the British government that their foe, the king of Abyssinia, was dead."

INDUSTRIAL NOTES.

Henry Shives, of the Bass blacksmith shop, is sick and off duty.

Nickel Plate Fireman D. N. Markle is off duty on account of sickness.

The employes of the Fort Wayne Electric company received their semi-monthly earnings today.

C. E. Walton, of the Chicago Terminal division of the Pennsylvania, was in the city over night.

F. Kraft, of the Pittsburg boiler shops, is on duty again. A week ago one of his legs was painfully injured.

J. B. Olinger has returned to his duties in the east car shops after a two weeks' absence on account of an attack of tonsilitis.

Professional business took Dr. C. B. Stemen to Upper Sandusky, Ohio, yesterday. The patient was an employe of the railway.

Nickel Plate engine 170 has been placed in the regular passenger service on trains 4 and 5, relieving No. 2, which will do extra passenger work.

William Keim, C. Mungen and William Reffelts resumed their duties on the Nickel Plate yesterday, after a brief absence on account of sickness.

C. A. Stemen, yard conductor of the Pittsburg, and D. D. Greenwald, H. G. J. Weiman and M. L. Miller, of the freight house, are sick and off duty.

George Knowlton has resigned his position in the laboratory of the electric works. He does not make known his intentions as to future employment.

Master Car Builder J. A. Graham and Chief Car Inspector W. W. Todd are in Chicago today looking after business for the Pennsylvania car department.

Fireman L. H. Kennedy, of the Pittsburg, is suffering from an affection of the ears, which was due to exposure and dust, and will be unable to work for a few days at least.

Conductor P. H. Seaney, who was off duty on acount of sickness in his family and himself, reported for work on the Nickel Plate yesterday. All the sick ones have improved.

P. McGloin, for twenty years an employe of the Wabash, with headquarters at Ashley for six or seven years, was a caller at the shops in this city yesterday, where old friends gave him a hearty welcome. Mr. McGloin has retired from railroad work and is now engaged in soliciting for an accident insurance company. He is meeting with success.

Engineer F. Simonton is sick; Engineer J. B. Ryan has a sick wife; Engineer Philip Titus is off duty on account of private business, and Fireman E. F. Henline is sick. All work on the Pittsburg road.

H. J. Acker, foreman of the Pittsburg freight house, left for Philadelphia last evening to join his wife and children and accompany them to this city. They had been visiting relatives in the Quaker City.

John Feiderspield is temporarily serving as night watchman at the electric works. S. W. Richards, the regular watchman, is taking a lay off to attend to some private business.

T. W. Demarest, of Columbus, Ohio, superintendent of motive power of the Pennsylvania Southwestern system, was here today on business with Supt. D. F. Crawford, of the Northwestern system.

Israel M. Adelman, a stenographer who has been employed in the office of Trainmaster D. H. Caldwell, of the Nickel Plate, for some time, resigned that position yesterday, to take a similar one in the office of Urbahns & Urbahns, insurance agents.

The Pittsburg and Lake Erie is having two big passenger engines built which will not only be powerful but very fast. It is expected they will haul the heaviest express trains of the road, or a train of ten cars, from Pittsburg to Youngstown in one hour—distance, sixty-one miles.

Fred Knoll, who operates the large press in the removal and putting on the axles of the engine drivers at the Wabash shops, was slightly injured yesterday. A block slipped from position and fell against Mr. Knoll, painfully bruising one of his arms. He will be unable to report for work in a couple days.

Drs. Kells, Sandoe and Talbott, the examining board of the pension department of the Pennsylvania company, left yesterday afternoon for Chicago, where they examined a class of applicants this morning. Twelve men were examined here and it is likely that all will be recommended for the pension list.

TRADES' COUNCIL FAIR.

The Edmunds Electrical company is preparing a wonderful exhibit for the Trades' Council fair which commences next ednesday night. They expect to expend no less than $600 in placing their exhibit before the public and have arranged with the Fort Wayne Traction company to get power from their big dynamo. Frying eggs on ice, cooking under water, melting steel like butter, and other wonders of electrical science will be demonstrated by an expert. This will be only one of a dozen or more interesting exhibitions which will be seen at the fair.

ENDURED SILENTLY.

Only a Woman Knows That Terrible Dull Aching Pain—That Aching Back, Languor and Weakness.

It is the Words of Women Who Have Used Dr. A. W. Chase's Nerve Pills Which Make Their World-Wide Reputation

Dr. Chase Says: "They Lift So Many Women From a Long Suffering Condition to Perfect Health, Because They Rebuild the Nerves--Renew the Blood.

Mrs. Ann J. Wiesmore of No. 201 Forest Avenue, Buffalo, N. Y., says: "For the last three years in particular I have been so bad with nervous spells I could do no work, nor was I allowed to go anywhere alone, as attacks were liable to come on at any time and I was helpless. I think it is due to my age and change—54 years. When the attacks came on, I was so flighty I was nearly crazy. A sudden bloating and rolling and tumbing of gas in the stomach began that interfered with and pressed up against my heart, making its action for the time irregular—then my head filled up with blood and made me feel crazy—I did not fall, but had to keep moving constantly—could not keep quiet a minute. My eyesight went all to pieces—there was a constant blurring—I had hot flushes until the perspiration stood out all over me and, strange to say, the appetite kept good, but was unnatural. Well, to make a long story short, after trying all sorts of medicine and many physicians, I got a box of Dr. A W Chase's Nerve Pills and they have done what all the rest could not—I am well and strong again. I can do my work, can be left alone, can go where I please and feel as if life were worth the living again—my family is delighted as well, and we cannot say too much in praise of this medicine Not an attack since I used the two boxes, and from a condition of utter wretchedness to one of health and comfort Isn't that enough to make me feel I can heartily recommend them to others as a grand medicine?

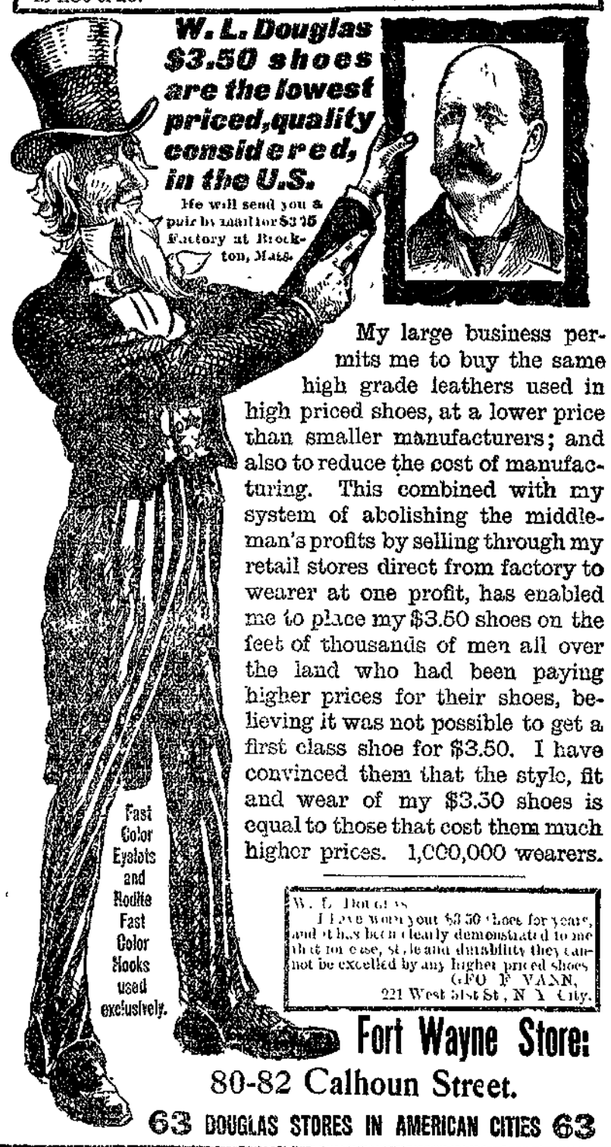
W.L. DOUGLAS $3.50 SHOE UNION MADE

My $3.50 shoes, placed side by side with high priced shoes, are found to be just as good, and it is impossible to see any difference. I make and sell more men's fine shoes, Goodyear Welt (Hand-Sewed Process) than any other manufacturer in the world. I will pay $1,000 to any one who can prove that my statement is not true. (Signed) *W. L. DOUGLAS.*



W. L. Douglas $3.50 shoes are the lowest priced, quality considered, in the U.S.
He will send you a pair by mail for $3.75. Factory at Brockton, Mass.
Fast Color Eyelets and Rodfte Fast Color Hooks used exclusively.

My large business permits me to buy the same high grade leathers used in high priced shoes, at a lower price than smaller manufacturers; and also to reduce the cost of manufacturing. This combined with my system of abolishing the middleman's profits by selling through my retail stores direct from factory to wearer at one profit, has enabled me to place my $3.50 shoes on the feet of thousands of men all over the land who had been paying higher prices for their shoes, believing it was not possible to get a first class shoe for $3.50. I have convinced them that the style, fit and wear of my $3.50 shoes is equal to those that cost them much higher prices. 1,000,000 wearers.

W. L. Douglas
I have worn out $3.50 shoes for years, and think been clearly demonstrated to me that for ease, style and durability they cannot be excelled by any higher priced shoes

RUSSIA EXPLAINS

OFFICIAL STATEMENT ON THE MANCHURIAN TREATY.

WAS A MERE MODUS VIVENDI

WAS BOUND TO PROTECT HER ASIATIC FRONTIER.

NEW PHASE GIVEN SITUATION

UNITED STATES GIVEN GOOD ASSURANCES.

St. Petersburg, April 5.—The Official Messenger today publishes a detailed review of the negotiations conducted by the allied powers with the Chinese plenipotentiaries at Tien Tsin and Pekin, and of the negotiations that led to the presentation of the French draft of peace conditions which consisted of twelve points, but which are not yet concluded. The Russian government then makes the following statement:

"While anticipating an early settlement of the questions affecting the mutual relations between all the powers and China, the Russian government on its part considered it necessary to concern itself with the establishment of a permanent order of things in the Chinese territories along the borders of which the Russian Asiatic possessions extend for a distance of eight thousand versts (5,300 miles.) To this end, provisional written conditions for a modus vivendi were agreed upon first between the Russian military authorities and the Chinese governors of three Manchurian provinces.

"With reference to the institution of a local civil administration subsequently, and after a careful consideration of all of the circumstances, the Russian government drew up the draft of a special agreement with China, providing for the gradual evacuation of Manchuria, as well as for the adoption of provisional measures to assure peace in that territory and to prevent the recurrence of events similar to those of last year.

"Unfortunately, with the object of stirring up public opinion against Russia, alarmist rumors were circulated in the foreign press regarding the purpose and intentions of the Russian government. Falsified texts of a treaty, establishing a protectorate over Manchuria, were quoted, and erroneous reports were designedly spread of an alleged agreement between Russia and China. As a matter of fact, this agreement was to serve as a basis for the restoration to China, as contemplated by the Russian government, of the province of Manchuria which, in consequence of the alarming events of last year, was occupied by Russian troops. In order that the requisite military measures might be taken it was imperative that the question should be settled one way or the other. It was impossible to lay down forthwith, by means of a mutual agreement, the conditions of the evacuation of Manchuria. According to the news received, serious hindrances were placed in the way of the conclusion of such an agreement and, in consequence its acceptance by China, which was indispensable for the gradual evacuation of the province, proved to be impossible.

"As regards the eventual restoration of the province to China it is manifest that such intention can only be carried out when the normal situation is completely restored to the empire and the central government established at the capital independent and strong enough to guarantee Russia against a recurrence of the events of last year."

The Russian government concludes its lengthy statement respecting the Manchurian agreement in these words:

"While the Russian government maintains its present organization in Manchuria to preserve order in the vicinity of the broad frontiers of Russia, and remains faithful to its original and oft-repeated political program, it will quietly await the further course of events."

A GRATIFYING SITUATION.

Washington, April 5.—The United States government has received a communication from the government of Russia of unusual importance. It bears on conditions in China and particularly those relating to Manchuria. The document has created a profoundly favorable impression and at the state department it is looked upon as the most salutory development that has occurred for many months in the eastern situation.

Secretary Hay received the communication from Count Cassini last night and communicated it to the president. Although the terms of the Russian communication are withheld it is known that Russia takes occasion to give strong assurances of her disinterested purposes throughout her dealings with China. As to Manchuria it is stated that Russia's course never has varied from the determination to leave that province as an integral part of China and to retire the Russian troops as rapidly as safety will permit.

But as a more signal evidence of Russia's purposes and as an evidence of the emperor's devotion to the principle of peace, assurances of a definite and satisfactory character are now given as to the execution of these purposes. The belief is held in official quarters that the assurances of Russia are so sweeping as completely to avert the threatened crisis in Manchuria.

SOME BOSSES SIGN SCALE

STRIKING PAPERHANGERS AND PAINTERS CONFIDENT.

Knights of Labor Endorse Position of the Workmen—L. O. Hull Discusses the Conditions.

The strike of the painters and paperhangers has not yet reached the stage of adjustment, and the meetings of the union today were held at Knights of Labor hall, where several new members were received.

The members of the union still express every confidence that they will secure the assent of the contractors to their terms and it was stated at the hall this afternoon that four of the employers had already signed the scale and three others had signified their willingness to do so.

At its meeting last evening Liberty assembly, No. 2315, Knights of Labor, adopted resolutions endorsing the position of the striking workmen, pledging sympathy, support and financial assistance if it be needed.

THE EMPLOYERS' POSITION.

Speaking of the situation today, L. O. Hull said:

"The Painters' and Decorators' union demands thirty cents per hour for paperhangers. I suggested some time ago that, inasmuch as some were good workmen and some bad—some fast workmen and some slow—that it would be unfair alike to the men as well as the employers to pay all the same price per hour, and I proposed that each man be paid, not by the hour, but by the roll, according to the quality and quantity of work done; when the paperhanger who does his work well and rapidly could make more than the union demands. This proposition did not meet with their ideas of equity, and they decreed that all paper should be hung by the hour. Now, what do we see? The men strike on all of us who employ men by the hour, while other dealers who employ men by the roll are not interfered with; so these dealers and paperhangers who ignore the union entirely are the only ones to profit by this strike. The moral is obvious, since the rule to hang paper by the hour is, by the union itself, 'more honored in the breach than the observance.' The evil effects of a prolonged strike are far-reaching. It cripples the business of the employer and brings suffering and privation not only to the men on strike themseves, but to their wives and families as well and finally destroys that good will, 'that fellow feeling that makes the world akin,' which should exist between employer and employed, neither of which can exist without the other. Both sides may indulge in loud talk about their independence, but no man is independent in the strict sense of the term; hence the paperhangers are no more necessary to us than we are to them. We have been paying the paperhangers twenty-five cents an hour—all we can afford to pay under existing circumstances, as there are too many of us engaged in the business and the competition is so keen and fierce that we are frequently compelled to pay the paperhanger more than we can get for his work. I for one would willingly, gladly meet the demands of the union if the condition of the trade would warrant it, and I believe that this kindly feeling is shared by every one of the employers in the city."

The Farther Lights society of the First Baptist church will meet this evening at the home of Miss Charlotte Martz, 15 West Jefferson street. The subject will be on missionary work in India, and all young ladies are invited.

KNOX ACCEPTS IT

PITTSBURG LAWYER TO GO IN THE CABINET.

WILL BE ATTORNEY GENERAL

HIS COMMISSION SIGNED BY THE PRESIDENT.

THE PRESIDENT'S JOURNEY

SOME DETAILS OF HIS TRIP ARE DISCUSSED.

Washington, April 5.—The president made the first announcement that Mr. Knox had accepted the post of attorney general to the cabinet today.

His commission, which is dated today, was signed immediately after the president had informed his advisors of their new colleague's acceptance.

Secretary Hay submitted to the cabinet the Russian communication referred to in a previous dispatch, and the news was accepted as an indication that the tension in the far east would be relieved. The major portion of the time of the meeting was consumed in a discussion of the civil service in the various departments. This matter came up apropos of the president's conference with members of the civil service reform league yesterday. Each of the cabinet officers gave his experience with the law.

There was an informal discussion of the report that Governor Allen, of Porto Rico, is to resign upon his arrival here, but no one appeared to have any definite information as to Governor Allen's intentions, although the opinion seemed to be that his resignation would cause no surprise.

THE PRESIDENT'S TRIP.

Washinton, April 5.—President McKinley took a long walk after breakfast this morning. He was accompanied by Representative Meyer, of Louisiana, who had called to talk with the president about his stay at New Orleans upon the occasion of his western trip. The president is looking forward to the long tour through the west with great pleasure and speaks of it with enthusiasm.

General Meyer told the president that the plans for his stay in New Orleans had been practically completed. An elaborate demonstration is being arranged.

The city will be decorated appropriately in honor of the visit of the chief magistrate.

According to the present schedule the presidential party will reach New Orleans at 1:30 p. m. May 1. That evening a banquet will be given in the president's honor. At the banquet the president probably will make a brief speech. On the following morning there will be a carriage ride through the city which will include a stop at the Cabildo, the old government building during the Spanish and French regimes.

After luncheon the party will be given a sail along the river front.

The departure from New Orleans will be made at 6 p. m., May 2.

REMINDERS OF EARLY DAYS

WORKMEN CAME UPON HUMAN SKELETONS.

In Excavating in Cathedral Square—Location Was a Cemetery Many Years Ago.

In excavating for the sewerage connections for the new Episcopal residence at Clinton and Lewis streets, workmen came upon the crumbling fragments of three human skeletons, and the incident will serve to carry the memory of the older inhabitants back many years to the time when the first Catholic cemetery in this section was located upon a portion of that plat of ground.

The bones were nearly transformed into dust, but had sufficiently resisted the chemical action of the earth to make their nature easily distinguishable. They were carefully collected and removed to the present Catholic cemetery east of the city and again interred.

J. C. Peltier says it has been nearly fifty years since the last body was interred in what is now Cathedral square, though it was for a time the only burial ground here for people of the Catholic faith. The cemetery proper lay east of the present site of Library hall and extended almost to Clinton street, while upon the corner stood a primitive school house. When the Catholic cemetery at the western edge of the city was established all the bodies that could be found were transferred there. The school house before mentioned served as a temporary hospital during the outbreak of cholera in 1849.

PORTO RICANS INTERESTED.

Washington, April 5.—That the report that Governor Allen, of Porto Rico, is to resign upon his arrival in Washington is credited in the island is manifest from the fact that the people of the island are already making representations to the president regarding his successor. Venceslao Borda, who is chairman of the Porto Rican commission, which recently came to Washington to protest against the Hollenden tax law, has written to the president on behalf of the commission suggesting Francis H. Wilson, the present postmaster at Brooklyn, N. Y., as a successor to Governor Allen. In offering Mr. Wilson's name to the president Mr. Borda, who is in New York, says he is obeying instructions cabled to him by the executive committee of the Merchants', Planters' and Bankers' association of Porto Rico.

FARMERS PURSUE ROBBERS

WHO MADE A WANTON ATTACK ON A FARM HOME.

Miscreants Believed to Be Those Who Robbed the Bank at Chardon, Ohio.

Little Mountain, Ohio, April 5.—A large posse of farmers, armed with shotguns and accompanied by dogs, is today searching the surrounding country for three men who late last night riddled the house of John Lemon with bullets. While Lemon and his family were entertaining some neighbors, three men, supposed to be members of the gang that robbed the Chardon bank Wednesday night, rapped at the door of the Lemon home and asked for food and drink. Upon being refused the strangers drew revolvers and began to fire rapidly into the house.

One bullet ripped through Lemon's coat, between his arm and his body. More shots followed in rapid succession, the bullets crashing through doors and windows, breaking pictures and lamps.

Lemon and his guests were unarmed and all made a hasty retreat by a rear door, clambering over fences and through fields to a neighboring house.

At daybreak Lemon returned to his house to find his household effects turned topsy-turvy and $100, all the money he had, missing. Meanwhile the country for miles around had been aroused and farmers turned out with their dogs and guns.

It is supposed that the robbers lay hidden in some barn or in one of the many thickets or gullies in this section all day yesterday.

The country is now so thoroughly aroused that there is good reason for believing the men will be captured.

The searchers are in a dangerous temper and will not hesitate to shoot down the desperadoes on sight if they make any move to resist.

Little Mountain is four miles east of Chardon.

Subsequently many of the farmers who joined in the search for the marauders returned to their homes without having found any trace of the trio. It is feared the men have escaped.

TWO SUSPECTS ARRESTED.

Chardon, Ohio, April 5.—Two men, arrested at Willoughby on suspicion of being connected with the robbery of the Chardon bank, were brought here today in irons. Blood was found on papers carried by one of the men.

NOT IN THE BIG TRUST.

Denver, Col., April 5.—"There is absolutely no truth in the report that the Colorado Fuel and Iron company is to be absorbed in the steel combination or that the steel combination will secure practical control of our company." That statement was made by J. C. Osgood, president of the Colorado Fuel and Iron company. "It would be impossible for the combination to absorb the company or to secure a controlling interest without my knowledge, and I have heard nothing whatever of any such movement."

The Hunters' Protective association will hold a meeting this evening at Concordia hall, on West Main street.

ARE NOT WORN OUT

KRUGER SAYS BOERS HAVE NOT BEEN WHIPPED.

STAND FOR INDEPENDENCE

WILLING TO SUBMIT ALL TO ARBITRATION.

WILL ABIDE BY THE RESULT

HE MAKES CHARGES AGAINST GREAT BRITAIN.

New York, April 5.—A dispatch to the Herald from Paris says:

An interview with Mr. Kruger appears in the Matin. The former president of the Transvaal was seen in a modest little inn at Utrecht, where he is stopping for the moment. His eyes have been very much improved by recent operations and he can now dispense with spectacles.

Mr. Kruger began by announcing that on Saturday next he proposed retiring into the country for complete rest. The little village of Hilbersum, not far from Utrecht, has been selected for his abode.

Nothing has yet been decided regarding his trip to America. He will undertake the journey if his strength permits and if there is any hope of gaining advantage for the Boer cause.

Mr. Kruger expressed his willingness to submit all questions entirely to the arbitrament of an impartial tribunal, not even excepting the question of independence.

"We would sacrifice our liberty," he said, "if the verdict of arbitration decided that one or other of the republics had done anything to forfeit it. But on that point we are at ease.

"The South African war has been on the part of the English a perpetual defiance of the Geneva convention. To a much greater extent than their refusal to accept any intervention is their defiance of The Hague convention."

Referring to General DeWet's raid into Cape Colony, Mr. Kruger denied that it was ever hoped to provoke a general uprising.

"We knew perfectly well that this would be impossible," he said, "because of the lack of munitions and arms, as well as the difficulty of combined action over such enormous distances. But the invasion demonstrated that the Afrikanders were everywhere favorable to our cause and ready to afford all help in their power.

"President Steyn and General DeWet, however, had a different object in view, and they attained it. They were able to obtain plentiful supplies of food and horses. Moreover, these brave allies operated a diversion, which allowed General Botha to escape from a tight position in the east of the Transvaal. They compelled the English to spread their forces over the enormous distances and to recognize the fact that the Boers were masters in the field.

"These results are surely not to be despised. The English cannot be masters of the two republics; they are not even undisturbed at the Cape and in Natal."

Mr. Kruger next dealt with the question of the mines where work is now said to have been resumed. He declared that so long as he was master in Pretoria the mines were safeguarded and work was continued.

"It is only since the British occupation that property has deteriorated and all that work has ceased. Everybody should know that as long as we could we remained faithful guardians of this international trust, carrying our scruples so far even as to respect the mines, which are the cause of all our misfortunes."

In conclusion, Mr. Kruger declared that, far from being exhausted, the Boer commanders were able to go on fighting indefinitely.

"We have combatants, arms and ammunition in sufficient quantities. It is useless to hope to reduce us by lassitude or extermination."

ESCAPED THE DUTY.

New York, April 5.—The Ward line steamer Mexico has arrived from Havana, where she was detained for more than two days beyond her usual sailing day in order to take the earliest advantage of the new law abolishing the export duty on tobacco and cigars. Very little tobacco or cigars were shipped from Cuba during the month of March, shippers holding back for April 1, when the export duty was taken off. The Mexico, the first ship to sail from Havana on April 1, was loaded to her ballast capacity, and brought 13,984 bales of tobacco and 1,190 cases of cigars and cigarettes, said to be the largest cargo brought by any one steamer from Havana to this port.

ENGINDER WAS KILLED.

Cleveland, O., April 5.—As a result of a freight wreck on the Wheeling and Lake Erie road near Jewett, O., early today Eigneer Fisher of the train and an unknown man who was in charge of some stock cars were killed. A brakeman was also slightly injured. The wreck was caused by the engine striking a large rock that had fallen from the embankment in a deep cut.

A FATAL AFFRAY.

Chicago, April 5.—A special from Washington, Ind., says: During a fight last night at Odon, seventeen miles north of here, Harley Lamb, 17 years old, killed Walter Carroll, aged 22, cutting his throat from ear to ear. Both were of prominent and wealthy parents. Lamb is under arrest.

FINDS A NEW PRESERVATIVE

IMPORTANT DISCOVERY OF A BUTTERMAKER.

Will Preserve Butter and Meats Without Injury or Distasteful Effects.

[Correspondence of Associated Press.]

Copenhagen, March 25.—A Danish butter maker has discovered a new preservative which excels everything in that line heretofore known. By means of this preparation it is possible to preserve butter, meats and all kinds of perishable merchandise.

Experiments show that butter, for instance, can be preserved, melted and cooled off again without losing any of its freshness. It can also be placed among goods that are decomposing or contain rank odors without being affected. The preparation is not injurious from a sanitary point of view and will, it is believed, create a revolution in the shipping of perishable merchandise.

The close commercial relations between the United States and Denmark constantly bring up new interests in different fields and new goods are constantly added to the list of imports. Recently the large landed proprietors have commenced to introduce American quail on their estates.

The Danish quail is a migratory bird, and for that reason the Danes wish to get a variety that remains all the year round, which the American quail does. Among those having purchased a large number of the birds from the United States are Count Frijs and Baron Reedts-Thott, former premier of Denmark.

OFFERED PLACES IN ALASKA

MR. AND MRS. WILLIAM A DAVIS MAY GO.

Were Formerly Allen County Educators and Are Well Known in Fort Wayne.

Mr. and Mrs. William A. Davis, formerly prominent in school work in Allen county and well known in this city, have been offered substantial government positions in Alaska, in which to continue their educational labors.

Mr. and Mrs. Davis are now connected with the Bennett academy for white students at Clarkson, Miss., of which Mr. Davis is president. The department of the interior, through its bureau of education, has just tendered Mr. Davis an offer of the superintendency of the government schools at Unalaska, Alaska, with a place for Mrs. Davis as assistant. The positions carry with them very fair salaries, but they have not yet decided upon an acceptance.

The Bennett academy closes May 24 and Mr. and Mrs. Davis expect to arrive in Fort Wayne about June 1 to spend some weeks with friends in this vicinity.

PISTOLS AND SWORDS.

New York, April 5.—A dispatch to the Herald from Nice says: A duel has taken place between Count Tarnowski and Lieutenant Colonel Tolstai. At first two shots were exchanged and then the combat continued with swords. Count Tarnowski was wounded in the forearm.

CONDITIONS IMPROVING IN ISLAND OF LUZON.

Manila, April 5.—7:05 p. m.—Aguinaldo, composing his manifesto to the Filipino people, spends hours consulting a dictionary. The manifesto is not yet finished.

Promising gold discoveries are reported from the Island of Masbate (close to the southern extremity of Luzon).

The collier Brutus has arrived here from Guam and reports that the Filipino prisoners there are in excellent health.

The investigation into the commissary scandals is progressing and those civilians implicated therein will soon be tried.

INSURGENTS SURRENDER.

Washington, April 5.—The navy department this morning received the following cablegram from Admiral Remey, at Cavite:

"Goodrell, at Olongapo, on the 4th concluded surrender of insurgents in country from Iba to Morong (Moron?)."

The territory referred to in Admiral Remey's cablegram is a stretch of land fifty miles long, from Morong, just below Subig bay, to Iba, a point nearly forty miles up the coast in Zambes province, a portion of the country which has caused no end of trouble to the American forces. General Greely said today that the signal corps had at least a dozen sharp fights in this vicinity while endeavoring to maintain open telegraphic communication with Manila. The insurgents finally became so aggressive that General Greely decided to have a cable laid from Olongapo, in Subig bay, which is the site selected for the new naval station in the Philippines, to connect with Manila on account of the difficulty in maintaining telegraphic communication overland.

The laying of the cable is now in progress. Lieutenant Colonel Goodrell, United States marine corps, has been in charge of the marines at Olongapo. The news that this troublesome portion of Luzon has been pacified is hailed with satisfaction by war department officials.

SAILS FOR MANILA

San Francisco, Cal., April 5.—The transport Kilpatrick will sail today for Manila with the headquarters' battalion of the third battalion of the first infantry, consisting of Companies K and L, the headquarters, staff and band and companies I and M, of the Eleventh infantry; company A, of the Tenth infantry; troop G, of the Fifteenth cavalry, one assistant hospital steward and six privates.

The passengers will include a surgeon's staff, consisting of Major General Arlington Pond, Major Robert H. Zunare, Major Walter Whitney, Captain Thomas W. Jackson, Captain W. T. Turner, Carl L. Clifford, Victor Emden and Miss Estelle Hine and Miss Edith Richmond, nurses. Tomorrow the animal transport Aztec is scheduled to sail for Manila with 472 horses.

The Ohio, now at the Union Iron works, is scheduled to sail on the 13th, the Logan on the 15th and the Warren on the 20th. Nearly 500 men are at work on the Warren under rush orders and repairs on the vessel are in progress day and night in the hope of having the transport ready to sail on schedule time.

The annual concert to be given by the Linden quartet at Wayne street M. E. church on April 12 promises to be one of the most notable musical events of the year in this city. The program as arranged is of unusual excellence. Assisting the Linden quartet will be Mrs. F. E. Stouder, organist; the Haydn quartet, the Apollo quartet, and Herman Tressolt, violinist.

Miss Florence Bricker, of 25 Oliver street, left today for Cadillac, Mich., for a visit with the family of her brother, Frank Bricker, and other friends.

REMAINS OF CHARLES A. MUNSON REACH THE CITY.

DIED AT CHICAGO THURSDAY

MANY YEARS A PROMINENT FORT WAYNE CITIZEN.

FUNERAL TO BE HELD SUNDAY

BRIEF SKETCH OF HIS ACTIVE AND USEFUL CAREER.

All that is mortal of Charles A. Munson rests once more at his old home, among friends who knew him best and loved him most. The remains of the well-known citizen, whose death at Mercy hospital, Chicago, was briefly noted in The Sentinel Thursday evening, arrived in Fort Wayne over the Pennsylvania railroad at 4:15 this afternoon, and were removed to the residence of his sister, Mrs. Diederich Meyer, at 22 West Wayne street.

The news of Mr. Munson's death caused profound sorrow throughout this city, for during long years of residence here—years of prominence in social, business and public life—he had formed the widest acquaintance, and his splendid nature had drawn men toward him in the bonds of a cordial friendship as unwavering as his own sunny nature. Few men, indeed, have been more universally known and more highly regarded by every class of people than he whose passing has come as a profound shock to the people of this city.

For two weeks Mr. Munson had been suffering from a disease of the bowels. It was but the recurrence of previous trouble of the same nature, and though the matter of a surgical operation was discussed on former occasions, he had apparently recovered and it was hoped there would be no recurrence of the trouble. The most recent attack proved more serious than any that had preceded it, however, and on Monday his stepbrother, W. P. Cooper, was called to Chicago. Later Dr. M. F. Porter was called in consultation, and as the only means that offered hope for the patient, an operation was performed at Mercy hospital Wednesday by Dr. Andrews, of Chicago, and Dr. Porter.

Mr. Munson withstood the operation fairly well, and though his condition was recognized as extremely critical, it was believed that he would recover. Thursday morning, however, at a time when it was hoped the patient would begin to manifest indications of substantial gain, there came a change for the worse. The most eminent professional skill could not stay the encroaching weakness, and the gradual decline continued. By noon Thursday hope had to be given over, and Mr. Munson slowly sank until he peacefully breathed his last at 2:23 o'clock. Among those at his bedside were his sister, Mrs. Diederich Meyer, and his brother, William P. Cooper.

NATIVE OF FORT WAYNE.

Charles A. Munson was fifty-eight years of age. He was born in Fort Wayne March 27, 1843, the son of James P. Munson, who came from Wolcottville, Conn., to Fort Wayne in 1840 and engaged in the mercantile business. His wife was a native of Tyrone, Ireland, where she was born in 1813, but came to America with her parents when but six years of age, living for a time in western New York, and later moving to Hamilton, Ohio.

At the latter place, in 1830, their marriage occurred, and to this union two children were born—Lucretia (now Mrs. Diederich Meyer) and Charles A. Munson. The father's health failed, and after eight years of residence in Fort Wayne the family removed to the east, where Mr. Munson soon died. After the death of her husband Mrs. Munson was united in marriage to Hon. Henry Cooper, of this city. One child was born to them—William P. Cooper, now a leading Fort Wayne insurance man.

Henry Cooper died March 26, 1853, and Mr. Munson's mother was again left with her little family to be supported by her needle. Young Charles' opportunities for obtaining an education were limited, as necessity made busy his youthful years, and the sturdy young lad bent every energy in assisting his widowed mother.

YOUTHFUL YEARS BUSY.

Young Munson's first employment was as messenger boy in the telegraph office. Afterward he became a clerk at Hamilton's boot and shoe store, and later at Kurtz's and Heller's grocery and provision stores. During several winters, when no other employment presented, the young lad sawed and split wood for the merchants and other citizens of the city. His industry and indefatigable determination attracted the attention of George L. Little, of the old commission house of McCulloch & Little, and he took a position as a buyer of grain and provisions for that firm.

ENLISTED IN THE NAVY.

The progress of the civil war fired the patriotic spirit of the young business man, and he resigned his position to enlist in the United States navy August 18, 1862, under Capt. Robert Getty, at Cincinnati. His sterling qualities were quickly recognized, and he was soon promoted from the grade of landsman to able-bodied seaman. In December 1862, Munson was ordered to join the ironclad Chillicothe, then engaged in defending the city of Louisville from an expected attack by the Confederate General Bragg.

A little later the Chillicothe was ordered to Vicksburg, and at this point he served for a time on the United States steamer Red Rover. Merit was again recognized, and after an examination by Captain K. Randolph Breeze, and upon recommendation of Captain St. Clair, of the Chillicothe, and Captain Wells, of the Red Rover, Munson was commissioned master's mate and made third officer in command of that vessel. Mr. Munson was then but 20 years of age. After the fall of Vicksburg and the opening up of the Mississippi river the young man resigned his commission and returned home.

IN BUSINESS AGAIN.

Late in 1863 Mr. Munson went to Stevenson, Ala., to take a fine position in the employ of Captain P. P. Baily and Nellie Borden, sutlers in the army of the Cumberland.

Returning to Fort Wayne at the close of the war Mr. Munson embarked in the retail grocery business, continuing until 1868, when he entered the emloy of Huestis & Hamilton, wholesale grocers, as a traveling man. This position he held for eight years, the latter half of that time as a partner of the firm, and his territory extending over large portions of Indiana, Ohio and Illinois. Mr. Munson was eminently successful, his annual sales exceeding $200,000. His genial, jovial nature and splendid business qualities here again contributed very largely to his success.

IN PUBLIC LIFE.

Mr. Munson took an active interest in public affairs, and he had a marvelous faculty of making and retaining friends. Political friends besought him to enter politics, and in 1875 Mr. Munson was elected a member of the city council upon the democratic ticket. During his term of office he held the chairmanship of the committees on finance and public printing.

At the democratic county convention in June, 1876, Mr. Munson received the nomination for sheriff on the ninth ballot, over eight opposing candidates, and at the succeeding election was victorious. He was renominated in 1878, and was reelected by a majority of 4,370 over his highest competitor, that being 593 votes ahead of the state ticket, and probably the largest majority ever given a sheriff in Indiana. As an officer of the county Mr. Munson displayed courage and discretion, and was never wanting in the performance of his duties.

But a still higher place appealed to him, and in 1886 Mr. Munson received the democratic nomination for auditor of state, but went down to defeat with the rest of the ticket by a small majority. In 1888 he was renominated and made a vigorous canvass of the state, but his zealous work for his party again proved unavailing, though it won for him a wide popularity and an extended acquaintance all over the state.

HIS LATER CAREER.

Retiring from the political field, Mr. Munson again entered business life as a member of the firm of Lillie & Munson, manufacturers of Huntington white lime. This continued until about eleven years ago, when he retired to become Chicago representative of the Fort Wayne Electric works, a responsible position which Mr. Munson retained until his last illness seized him.

During this time he has been occupied at Chicago, where he lived at the Lexington hotel, but retained Fort Wayne as his residence, owning property interests here and making frequent trips to the city of a business character and to renew the friendships of a lifetime. Mr. Munson never married, and in this city made his home with his sister, Mrs. Diederich Meyer.

Mr. Munson stood high in Masonry, having advanced to the 33rd degree. He was a member of Summit City Lodge 170, F. & A. M.; of Fort Wayne Commandery No. 6, Knights Templars; of Fort Wayne Lodge of Perfection, and of Indiana Consistory, Scottish Rite, of Indianapolis.

The funeral services will be held on Sunday afternoon and will be under the auspices of the Knights Templar. The exact hour has not yet been determined.

TRADES COUNCIL FAIR.

Next Wednesday night the Trades council fair will be inaugurated at the Saengerbund building and from all indications it will be a great success. The general committee held a meeting at the city hall last night and reported all arrangements completed and nearly all the available floor space for booths sold. Wolff Bros. will erect one of the finest booths to be seen, although many other merchants will make excellent displays. There will be many novelties and some great surprises will be sprung on the public when the fair opens. Every trades union in the city is taking an active interest and the ladies are busying themselves in making fancy pieces for sale. There will be an abundance of music every night and many new features never before seen at a fair will be introduced.

WERE WEDDED THURSDAY.

Henry W. McMaken and Miss Jessie M. Freck were united in marriage at 4 o'clock Thursday afternoon at the residence of and by Rev. J. C. Breckinridge, 425 West Main street. The bride is a daughter of Henry Freck and both Mr. and Mrs. McMaken are well known and highly respected young people of Wayne township. Numerous friends will extend warmest congratulations. The newly wedded couple will reside upon the McMaken homestead west of the city.

Made A Great Hit

The announcement a week ago that George Streicher, of the Aveline barber shop, had returned from the east, where he had taken a course of instruction in face massage, under one of the leading dermatologists of the country and was prepared to administer it scientifically to his patrons, was highly appreciated. All who have taken the treatment express themselves as more than delighted with the results obtained. Mr. Streicher has been at great pains to thoroughly instruct all his workmen, who are now equally qualified to give the same scientific treatment as can be obtained at the best shops in the eastern metropolises. Mr. Streicher was the first to introduce the compressed air system in Fort Wayne and in this connection it is proper to state that all improvements in tonsorial service that are worth having, can always be found at the Aveline shop; worthless experiments and unbeneficial fads he does not bother with. Massage treatment, removing sunburn, freckles, blackheads or blemishes can be obtained from competent and experienced operators at all times.

FORMER FORT WAYNE MAN NOW IN CALIFORNIA.

Israel Messler on the Pacific Coast, Where He Will Shortly be Joined by His Brother.

Anent the suit commenced a week ago by Mrs. Israel Messler, asking for a division of the property and an accounting by her husband, who has gone west, the following from Thursday's Huntington Herald may be interesting:

"Some weeks ago, it will be remembered, the Herald gave an account of the peculiar disappearance of Israel Messler from the vicinity of Fort Wayne. He had been in this city transacting business and was well known here for a number of years. It was learned that the disappearing man's business affairs had been settled up by his brother, Rev. Amos Messler. It so happens that the minister's wife is now in this city, visiting at the home of her sister, Mrs. Ed Powers. She says it was $13,000, instead of $12,000, that Israel took with him and he is now in California. His wife is still a resident of Allen county so far as known.

"Mrs. Amos Messler says her husband was not responsible in any way for Israel's departure, but looked after his business affairs and accompanied him to the home of their brother George, in Nebraska, where Amos has located. He will be joined by his wife and son Clarence in the course of ten days or two weeks."

Mr. J. Pierpont Morgan is stated to have recently taken a profoundly patriotic interest in strengthening the national finances. It has been noted that whenever J. Pierpont becomes genuinely alarmed about the state of the government cash balance he adds another cipher to the right side of his exhibit of assets.

It is not often the such strenuous means are adopted to bring a guest of honor to the board as were employed to get Aguinaldo within receiving distance of our hospitality.

The latest British casualty list from South Africa proves that if Boer resistance is on its last legs that section of its underpinning is neither weak nor weary. Meanwhile the cost to Great Britain does not grow particularly less when measured in pounds.

Either Russian revolutionists are very bad shots or Russian correspondents make very bad guessers. This member of the imperial household, for instance, who fired at the czar and missed—why did he not try again? He had time to kill himself; he must have chosen his occasion very badly if he could not get another shot at his target. And who told about it? This latest story is said to be credible because it comes from Kieff. But the czar has not recently been at or near Kieff, and somebody must have carried the information there, since they do not allow these things to be telegraphed from St. Petersburg. We must suppose that some other member of the imperial household rushed off with the news of the attempt on the czar's life and carried it to Kieff. If he did, that would be the end of him. Our Russian news comes by way of Berlin or of London, or from Berlin via London, and neither source is very sympathetic. Some of it may be true, but not all of it can be true, and each reader must select for himself what he would like to believe.

Aguinaldo, when enlightened as to what this government's intentions were in the Philippines and informed as to what had already been done, exclaimed: "I never thought the Americans would be so fair." Well, if he thinks so now, he can do a deal to help things along. Aguinaldo is a pretty bright fellow, fairly well educated, has knowledge of western civilization and harbors well-defined and creditable aspirations for free government. There is little doubt that he would be found tolerably competent both as an officeholder and administrator. If American sovereignty in the Philippines is abandoned it will be because the Americans voluntarily leave, and not because the Filipinos drive them out. As the United States is there to remain at least indefinitely, Aguinaldo can help his people to vast profit in knowledge of self-government by doing all he can to restore order and assisting the Americans to establish some form of local government in the archipelago. Then if Uncle Sam should some time conclude to hike from the Philippines it will be safe for him to do so. The late leader of the insurrectionist Filipinos would profit much from a visit to the United States and the rumor that he is to come over here ought to be true.

CAPT. REESE STARTS HOME

WITH HIS WIFE HE LEFT SAN FRANCISCO LAST NIGHT.

Received High Commendation for His Work as Mustering Out Officer for the Thirtieth.

Captain and Mrs. Charles E. Reese left San Francisco last evening on their homeward journey. They will travel slowly and will stop for short visits at Salt Lake City, Denver and Kansas City and are expected to reach Fort Wayne in about two weeks. When the transport left Manila with the Thirtieth regiment Captain Reese was placed in charge of the muster rolls and when he arrived at San Francisco he was appointed mustering out officer. His work was very arduous and he completed his task only on Sunday last. He put in two days more making his report and on Wednesday evening was mustered out, receiving the highest commendation from the ranking officer at the Presidio for his faithfulness, industry and the intelligent manner in which he discharged all his duties. In a letter to his father received yesterday he said that he had no plans for the future, but would take a short rest and would then decide on his future course.

ABOUT THE CITY HALL.

There was no police court this morning.

Peter Eckrich has been granted a permit to erect a brick residence at the corner of Francis and Lewis streets, to cost $3,000, and Ruth L. Greer has been granted a permit to build a frame residence on Erie street at a cost of $600.

Among a number of prisoners paroled from the penitentiary at Michigan City are a man named Harshberger, from Fort Wayne, and Jim Jacobs, sent up for two to twenty-one years for burning the City Trucking company's barn several years ago. Jacobs says he will come direct to Fort Wayne.

The last smallpox card in the city was taken down yesterday. There are now only eight houses quarantined for contagious diseases of all kinds.

At the meeting of the board of works held last evening the Harrison street tunnel matter, which was to have been taken up, was again postponed on account of the absence of City Attorney Shambaugh. Mr. Shambaugh informed the board yesterday afternoon that he was called from the city and it was his desire that action on the matter be postponed for one week. The Wabash people were not represented, which makes it look as though they propose to meet the matter in the courts and then perhaps secure a compromise. The board of works, however, says that the crossing will be put through and that the Wabash can make better terms now than they can later, as the law is decidedly on the side of the city.

M. L. Jones and sixty-four others asked for a cement sidewalk on Wayne street, from Calhoun street to College street, and it is probable that the petition will be granted and the improvement ordered. This will be a great improvement and one that will be likely to be followed at many other places in the city where new sidewalks are needed. In the city of Logansport there is an ordinance that all sidewalks shall be of cement, and the result is that Logansport has the best sidewalks of any city in the state of Indiana. These sidewalks will probably be built to a width of six and one-half feet.

Plans and specifications for a pavement on Hanna street from Wayne street to Creighton avenue were also approved and an improvement resolution was adopted. The street will be paved to a uniform width of thirty feet and four different kinds of material will be advertised for. It is understood that the residents generally prefer brick. The improvement will be over a mile in length and will constitute the biggest job of the year, although other streets will be paved which will make the aggregate to be paved this year somewhere in the neighborhood of three miles.

ASK FOR VOTE ON LIGHTING

LARGELY SIGNED PETITION IS FILED TODAY.

Want Popular Opinion of Matter of a Municipal Lighting System at Once.

More than 1,000 Fort Wayne voters have signed a petition asking an opportunity for the people to vote upon the question of the construction of a municipal lighting plant at once, without waiting for the expiration of the Jenney company's contract with the city for street lighting.

This petition, which has been circulated under the auspices of the social democracy and signed by 1,045 voters, was filed today with the city election commissioners—Henry B. Manning, W. P. Breen and F. J. Woodworth. Emmett Martin filed the document, which reads as follows:

"The undersigned freeholders, citizens and voters of the city of Fort Wayne, respectfully ask that at the next spring election for city offices, which will occur in the spring of 1901, a ballot be prepared to vote on the following proposition, to-wit:

"'Shall the city of Fort Wayne, Indiana, build and equip at once suitable plants for the purpose of furnishing electric lights for private residences and consumers; these plants to have ample provision to light the streets when the street franchise with the present electric company expires.'"

Mr. Martin, who filed the petition, states that it has been readily signed without question, and he has been given assurances that there would be no hesitancy upon the part of the election commissioners in providing for the vote upon the subject.

ADJUTANT HITE SURPRISED.

Friday evening Commander A. W. Pierce, of Sion S. Bass Post, with a detachment of veterans representing every department of the military service from 1861-1865, went out upon a foraging expedition and during the raid got into the commissary department of the adjutant, H. T. Hite, of 131 Broadway, and partook of what he had in store. It was a complete and very enjoyable surprise. Mr. Hite has been traveling life's journey for 59 years, and his comrades did an excellent job of celebrating the anniversary. Music, vocal and instrumental, preceded the refreshments, and an old-fashioned smoker followed. A number of valuable presents were given the host, and the comrades parted at a late hour after extending congratulations.

GREAT MORTGAGEE SALE OF THE JAMES TAFT STOCK

of Dry Goods, Cloaks, Suits and Millinery, Beginning Tomorrow Morning and Continuing Until $13,000.00 Has Been Realized.

Mr. Taft's creditors were clamoring for cash; to satisfy a large part of them, he was obliged to raise the above amount of money and secure the same by chattel mortgages on his stocks. This amount must be realized at the earliest possible moment.

Thousands of dollars worth of high-grade dry goods, notions, cloaks, suits and millinery must be disposed of irrespective of cost, value or price for which they were formerly sold. Knowing just how much of a rush there will be, we advise you to come in the mornings if possible. No similar dry goods event of the past, no matter how conspicuous it may have been for its money saving, has in any way equaled this. Many items that you will see priced in this sale will be recognized as having been offered for 1-3 to 1-2, and double the price placed upon them now.

WOMEN IN A DEADLY DUEL

OKLAHOMA MATRONS FIGHT A BLOODY BATTLE.

Revolvers Used at Twenty Paces Result in the Wounding of One Female.

Newkirk, Okla., April 5.—Mrs. Ella Seiglin and Mrs. Daughson, living near this city, fought a duel with revolvers at twenty paces Wednesday, and Mrs. Seiglin is now in a hospital, dangerously but not necessarily fatally wounded. Two of her opponent's shots lodged in her breast, but she is able to talk volubly and is anxious to recover in order that she may again fight Mrs. Daughson.

The duel grew out of a long-standing feud between the women, jealousy being the original cause. Mrs. Daughson lives on a farm just south of the city and Mrs. Seiglin has frequently traveled that way to arouse the temper of her neighbor by various means, the most effectual being the claim that she (Mrs. Seiglin) could take Mrs. Daughson's husband away from his wife any time she wished.

APPEALED TO THE COURTS.

Mrs. Daughson finally appealed to the courts, and Wednesday forenoon Mrs. Seiglin was fined $300 for trespassing upon the Daughson property and inciting trouble. As soon as she paid the fine Mrs. Seiglin drove out to the Daughson home, smarting under the loss of money and the criticism of the trial judge. Riding up to the door of the Daughson home, she dared her rival to come out and fight a duel.

Mrs. Daughson promptly accepted the challenge and came out, armed with a double-action revolver. Mrs. Seiglin alighted from her buggy and tied her horse. The women then faced each other at fifty feet and began shooting, the signal being given by a daughter of Mrs. Seiglin, who had accompanied her from town. Each fired three shots without effect. Then Mrs. Daughson got the range and fired two shots in quick succession, both striking Mrs. Seiglin in the breast. She fell, and Mrs. Daughson assisted in carrying her into the house, where a physician dressed her wounds, after which she was conveyed to a hospital.

HUSBANDS LIKELY TO FIGHT.

Now the husbands of the women are seeking each other, vowing to kill on sight. The partisans of each woman are also burnishing up their weapons and seeking an excuse to shoot somebody. During the trial Wednesday the two women attempted several times to fly at each other and fight it out then and there, and the belligerent spirit permeated the entire courtroom.

Mrs. Seiglin says her revolver refused to work after the first three shots and that she will make a better record when next she faces Mrs. Daughson. The latter has not yet been arrested and grimly remarks that she has taken the precaution to reload her revolver and oil its joints, and that she can be found at home by anyone looking for an argument.

BRAIN FOOD

Is of Little Benefit Unless It is Digested.

Nearly everyone will admit that as a nation we eat too much meat and too little of vegetables and the grains.

For business men, office men and clerks, and, in fact, everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruits and vegetables should constitute the bulk of food eaten.

But many of the most nutritious foods are difficult of digestion and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years' experience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ, but only on the food eaten. They supply what weak stomachs lack, pepsin diastase, and by stimulating the gastric glands increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion, which means perfect health.

There is no danger of forming an injurious habit, as the tablets contain absolutely nothing but natural digestives; cocaine, morphine and similar drugs have no place in a stomach medicine and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies.

Ask your druggist for a fifty cent package of Stuart's Dyspepsia Tablets and after a week's use note the improvement in health, appetite and nervous energy.

We receive your money cheerfully and give it back just as cheerfully if a purchase is not satisfactory.

DEATH ENDS LONG ILLNESS

MRS. CAROLINE W. PHILLIPS IS NO MORE.

Well Known Lady a Resident of Fort Wayne Since 1853—Other Mortuary Matters.

Mrs. Caroline W. Phillips, for many years a resident of this city, widely known and most highly esteemed, died at 7:15 o'clock this morning at her home, 121 West Main street.

Mrs. Phillips' illness had been an extended one, and while many of her friends knew of her failing condition, the news of her death will cause sorrow no less poignant, for during a residence of nearly fifty years in Fort Wayne Mrs. Phillips had won a multitude of steadfast friends, who recognized and admired her sterling qualities and her lofty character.

Mrs. Phillips was nearly sixty-seven years of age. She was born at Zadelsdorf, Saxe-Weimar, Germany, May 29, 1834, and with her parents, the late Charles G. and Edmuntha Vogel, she came to Fort Wayne in 1853. Five years later she was united in marriage to Bernard Phillips, for many years a prominent Fort Wayne business man, who died October 28, 1876.

Surviving are a daughter, Mrs. William P. Breen, and a son, Frank D. Phillips. The deceased was a devoted member of the Cathedral congregation and the funeral services will be held from the Cathedral on Tuesday morning. It is the wish of the family that no flowers be sent.

BURK.

Marie Burk, the little daughter of Mrs. Mary Burk, of 99 Green street, died at 9 o'clock Thursday evening from scarlet fever at the aged of 7 years, 1 month and 16 days.

The father of the little girl met his death but a short time ago in an accident on the Pennsylvania railroad at Lima, O.

The remains will be shipped to Chambersburg, Pa., tomorrow, for interment.

MELICK.

Gladys Melick, an inmate of the Indiana school for feeble minded youth, died at that institution Thursday night, at the age of fourteen years, three months and twenty-seven days.

The remains were today shipped to Spencer, Ind., for interment.

LOCAL NEWS.

NEW ARTILLERY REGULATIONS

Washington, April 5.—Secretary Root has been considering the subject of artillery regulations for the corps. The reorganization act provided that the secretary should prescribe regulations, and under this clause he has sought information from the army officers qualified to make suggestions. He has requested the views of colonels of artillery and most of these have been received and are now being considered. When the regulations are formulated and adopted the chief of artillery will be named, and two additional officers selected for members of the ordnance and fortifications board. Several colonels of artillery have indicated their disinclination to serve as chief of artillery, as the selection carries with it no additional rank or pay and every colonel is now in command of some post, a more pleasant duty than can be found as chief of artillery stationed in Washington and directly subordinate to the officers in the department with the whole responsibility of the corps on his hands.

NEWS OF THE DIAMOND

Indianapolis was first in the game in the Western association. Watkins' men played an exhibition game with Buffalo yesterday and the Hoosiers were defeated by a score of 9 to 4. The weather was good, but the crowd was small. Last year Fort Wayne beat Buffalo two games and Buffalo went direct to Indianapolis and skinned Watkins' club two games.

Hon Fricken has discovered a wonder down east and Manager Miller instructed him to sign him and bring him along. The newcomer's name is Maily. The Fort Wayne players have all been ordered to report here by the 7th instead of the 10th.

Columbus is in another batch of trouble. After looking for a manager for two weeks Frank Motz, an excellent man, was finally selected. Yesterday Motz telegraphed the Columbus club owners that he would have to cancel his engagement. The Columbus men are now in a bad way for a manager with the opening of the season less than three weeks off.

The Ohio-Pennsylvania-West Virginia league died a-bornin' and has been abandoned. Wheeling with its $10,000 stock company has concluded to abandon the game this season.

President Meyer has ordered league umpires to report to him April 23 for a feet to face talk. He will insist on all the rules being strictly enforced from the first day, and if the staff selected can't do it he proposes to get one that will.

Strobel has ordered all his men in by Monday and active practicing will be commenced on Tuesday.

Manager Armour has his team collected and practice was commenced yesterday morning. The Daytons will play their first game with Buffalo on Sunday next.

Bey and Shannon, two new men at Indianapolis, are left-handed batters and usually are half way to first by the time the bat hits the ball.

Pitcher Poole, the phenom of last year's Wheeling team, now with Pittsburg, may be released or farmed out, along with Wiltsie. Clarke has a strong quintet in Tannehil, Leever, Chesbro, Phillipi and Waddell, and cannot carry more than five pitchers.

A number of National and Western clubs have already commenced playing ball and from everyone comes a loud and unanimous kick against the new playing rules. The rule calling all but the third foul a strike and the hitting of a batsman a ball are particularly obnoxious and it is predicted that those two rules at least will be annulled before the season opens.

Hogs—Receipts today, 20,000; tomorrow, 14,000; left over, 2,450. Market slow; top, $6.15. Mixed and butchers, $5.85@6.12½; good to choice heavy, $6.05@6.15; rough heavy, $5.85@5.95; light, $5.80@6.05; bulk of sales, $6.00@6.10.

GOOD FRIDAY OBSERVED.

In the Lutheran, Catholic and Episcopal churches today the anniversary of the tragedy of Calvary was remembered and special services were held. In the Catholic churches in observance of the teaching of the Bible that Christ died for all men, special prayers are said for Catholics, Jews, heretics and persons professing their faith in other churches of Christ. After these prayers the crucifix, which has been veiled in black, is uncovered while "The Reproaches" are sung. These are selections from Jeremiah and the prophets. After "The Reproaches" the Sacred Host, which had been taken to the repository on the day before, is brought back to the altar. Mass is not celebrated on Good Friday and no one receives communion. Tomorrow is Holy Saturday and the fire that furnishes the lights used in the churches during the year is blessed. The fire is produced by striking flint and steel. The Paschal candle is also blessed, and it is lighted at each service until Ascension day, forty days after Easter. The water in the baptismal font is blessed and the ceremony is followed by mass.

WEST LAKE CLUB IS READY

A SMOKER FOLLOWS THE ANNUAL SPRING MEETING.

Piscatorial Organization Chooses Officers and Talks of Catches It is to Make.

The West Lake club held its annual spring meeting at Turner's hall last night and elected officers for the ensuing year, in addition to generally discussing the situation as it pertains to the piscatorial art. It was unanimously agreed that the coming season gave promise of an abundance of fish, and consequently fine sport for the club members. The following is the official list as selected last night:

President—C. F. Knothe.
Vice President—Henry Weise.
Secretary—Frank C. Kehlet.
Treasurer—George Bley.
Trustees—M. L. Jones, Peter Heukenius and Daniel Rehm.

After the regular business of the club the members indulged in a social session, which took the form of a smoker, and was continued until long after the midnight hour.

NEWS GATHERED IN COURTS

In charge of Drs. VanBuskirk and Tinkham, Joseph Brauneisen, the Bloomingdale grocer, was this morning taken to the asylum at Richmond. James Rhine, who escaped from Richmond several days ago, was not taken back, the superintendent telephoning Sheriff Stout to allow him to remain at his home for a while and report his condition to him each week. Rhine accordingly was taken charge of by his father and taken to his home near the east city limits.

The various township trustees will tomorrow meet in Superintendent Young's office to receive instructions concerning the annual enumeration of school children in their respective townships. There are also some important changes in the school law which the superintendent will call to their attention and explain.

Andrew Dornte, the young lad bound over from police court a week ago for the theft of the horse and vehicle from the barn of Sam F. Swayne, was taken before Judge O'Rourke this morning. The evidence was heard and the judge found himself in a quandary. Young Dornte is an exceptionally bright looking lad and is intelligent, but mischievous, and the officers were at first inclined to make an effort to send him to the reform school. It was finally concluded to give him one more trial and after administering a severe reprimand and admonishing him that his next offense would surely land him in a penal institution, or in the reformatory, he was allowed to go. His mother says she believes that his last experience will prove a salutary lesson and that he will be good in the future.

Mary E. Weist sues Horatio Wiest for divorce. The complaint alleges that the couple were married in 1890 and that ever since that time the husband has been improvident. In February, 1899, he abandoned her altogether, enlisting in the United States army, and since his enlistment she has received a total of $4 from him. There are three children, and of these the plaintiff asks the custody.

The case of Morton McComb, administrator of the estate of J. J. Rundel, vs. James Warner, on a note has been venued to Whitley county.

Judge Adair is today hearing evidence in the case of Jesse Grice vs. the United States Mortgage and Trust company. This is an echo from the late lamented J. F. Schell Investment company's collapse.

In the superior court the case of F. M. Miller vs. Herman Heersche, for damages sustained in an assault was dismissed at the defendant's cost. The suit was for $1,000, but was compromised out of court.

In the case of Jameson vs. the Union Life Insurance company the default and judgment was set aside.

George S. Miller was today admitted to the Allen county bar by Judge O'Rourke.

In the case of the state ex rel the state board of medical examiners vs. George LaFollette a dismissal was entered.

Ralph Dunlop, arrested yesterday for embezzlement of collections while in the employ of Charles Littleton, the fish merchant, was arraigned in the circuit court. A plea of guilty was entered and Judge O'Rourke sentenced the young offender to jail for twenty days.

The commissioners today considered ditch matters. In the Brtick ditch in Milan and Jefferson townships H. W. Felts, Daniel Dalman and John Gephart were appointed viewers and in the Fack ditch in Pleasant township the matter is still under consideration.

PROHIBITIONISTS TO RALLY

HOLD A MEETING IN FORT WAYNE APRIL 22.

State Evangelist Van Cleave Will be Present—Organize for the Next Campaign.

Indiana prohibitionists are getting an early start at organization for the next political campaign and say they will work unceasingly in the temperance crusade until that time.

Fort Wayne and Allen county members of the party will hold a rally in this city April 22, both afternoon and evening. The state evangelist, Mr. Van Cleave, will be the chief speaker and in addition to this feature there will be an additional program of music and addresses. The entire county will be reorganized for future political struggles and an attempt will be made to interest every friend of temperance in the movement. The invitation is extended to the public for both afternoon and evening sessions.

IN JUSTICES' COURTS.

Charles Bevenitz this morning filed an affidavit against J. W. Shaw for selling lottery tickets giving the holder a chance in the drawing for a suit of clothes. Mr. Bevenitz is the president of the Tailors' union and it was at the instigation of that body that the suit was brought. Their claim is that these suit clubs multiply as the season advances and deprive local tailors and journeymen of much work. The clubs are a scheme of New York tenement sweat shops and the clothes are all made by non-union tailors. If the clothing was made by Fort Wayne tailors the Tailors' union would not interfere, but as it is the action is taken in the interest of home industries.

WILL TRY FOR IT.

The state encampment of the Grand Army of the Republic will be held at Logansport in May, and Fort Wayne veterans believe that a little well-directed effort will bring the encampment to Fort Wayne next year. The matter will be taken up by the Commercial club at its next meeting.

MARRIAGE LICENSE.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles.

Mr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

WAGE DISCUSSION

THE CENTRAL JERSEY AND EMPLOYES AT IT.

BROTHERHOODS MEET BOSSES

WANT SCALE FIGURED UPON MILEAGE BASIS.

A CALF HAS FUN ON A TRAIN

BAGGAGE "SMASHER" COULD DO NOTHING WITH IT.

New York, April 5.—There is a conference being held today in this city of the heads of the national organizations of railway employes and the chiefs of organizations of the men employed on the Central Railroad of New Jersey. John D. Waite, of the Brotherhood of Locomotive Engineers; E. Shea, of the Brotherhood of Locomotive Firemen; E. H. Titus, of the Order of the Railroad Conductors; Michael Dolphin, of the Order of Railway Telegraphers, and Joseph Harrison are in session. They all represent the employes of the Central railroad of New Jersey. With them acting in an advisory capacity are the following national officers: P. M. Arthur, chief of the Brotherhood of Locomotive Engineers; F. P. Sargent, grand master of the Brotherhood of Locomotive Firemen; P. H. Morrisey, grand master of the Brotherhood of Railroad Trainmen, and E. E. Clark, of the Order of Railroad Conductors. At a secret conference held yesterday an invitation was sent by resolution to C. H. Warren, second vice president and general manager of the Central Railroad of New Jersey, asking him to be present today and confer with the labor representatives and listen to their grievances. After being in session for an hour today there was a recess to await the receipt of an answer from Mr. Warren. The men are now paid by the day. The request on the part of the conductors, engineers and firemen and other trainmen is that the mileage system be substituted and that 100 miles be adjudged a day's work.

LARGEST IN MONROEVILLE.

The funeral of the late Robert H. Myton yesterday was the most numerously attended of any ever seen in Monroeville. It may be said with truth that nine-tenths of the population of that town turned out and participated in the sad rites in some manner. Seventy-three members of the Brotherhood of Railway Trainmen were in the sad procession from the house to the cemetery. Rev. T. J. Johnson, of the Simpson church, preached the funeral sermon.

SIX CARS WRECKED.

A broken car axle caused six cars to leave the rails two miles west of Warsaw and pile themselves up in a manner that completely blocked the road at that point for a couple hours. The train was eastbound freight No. 74, loaded with grain and general merchandise. The cars derailed with loaded with barley and corn and were broken in such manner that their contents were spilled upon the tracks, adding to the difficulty of clearing the right-of-way of wreckage. Trains No. 6 and 9 were delayed by the accident, but nobody was injured.

LAST QUARTERLY MEETING.

The last quarterly meeting of the Pennsylvania Voluntary Relief association for the fiscal year 1900-1901 will be held in Pittsburg on the 23rd inst. At this meeting the time for the annual election of advisory board members will be fixed and immediately following will come the announcement of candidates for the position. F. G. Olds is the present incumbent. It is not known whether he will try for re-election or not. There will be no lack of candidates.

GOOD FRIDAY AT THE SHOPS.

All the railway and other shops in the city are short of men today because of the great number who laid off in order that they might participate in Good Friday services at the churches of which they are members. The Pittsburg car shops are probably the most seriously crippled in this way. It is estimated that fully 100 men are absent from their work there. The Bass foundry, the blacksmith shop and the boiler shop are also crippled in a like manner. At the electric works there are not so many men off duty today as would have been were it not pay day at that establishment. They had to report to get their earnings and they, no doubt, concluded that they might as well work.

NOT HEREDITARY

In the main, consumption is not hereditary; it is infectious. People are too afraid of heredity; better not think of the subject at all. Infection occurs continually.

Low vital force is hereditary; which gives consumption its chance. And infection plants it.

Between the two, the crop is a big one: about one-sixth of the human race, so far as is known.

We suppose it needn't be 5 per cent, if people would take fair care and Scott's emulsion of cod-liver oil.

The care saves life in all ways; the emulsion is specially aimed at the lungs, beside its general food-effect.

We'll send you a little to try, if you like.
SCOTT & BOWNE, 409 Pearl street, New York.

MORE SERIOUS THAN STATED.

The collision on the Nickel Plate at Erie last Tuesday was a more serious affair than published in the Fort Wayne papers. Two engines were badly damaged and two men were injured, one so badly that he died shortly after the accident. The dead man was Engineer Nelson Howard, who had been employed on the road for a number of years and who was, consequently, quite well known to the trainmen and enginemen over the entire system.

WILD CALF IN BAGGAGE CAR.

The following is a copy of a letter sent to the general baggage agent of a St. Louis Eastern line by a baggage agent in reference to a claim for a broken bicycle:

"In regard to bicycle being broken by calf jumping into it, I would just say that this was a very wild calf, and I could not hold it. So it done about as it plensed and jumped onto this bicycle with both feet, and kicked both tires off, and bent some of the spokes, and calf, bicycle and all went out of the car together.

"These calves are given to us with only a rope around their neck, and sometimes we have ten or twelve of them at once, and it makes a very bad-looking car to put baggage in. Sometimes a valise that is not locked comes open and the clothes are spilled out on the floor, and they are in a fearful shape by the time the calves get through with them.

"I understand that there is an order not to allow calves to be shipped in a freight car without being crated. We have a combination mail and baggage car, and have to put trunks, bicycles and calves together, and they are not crated either."

LEAVES FOR THE WEST.

C. H. Walton, superintendent of the Chicago Terminal division of the Pennsylvania company's lines, who had been resting quietly at his home in this city for four or five days, went to Chicago this afternoon. Tomorrow he will leave for California, where he expects to remain two or three months. There has been no appreciable improvement in Mr. Walton's health since he entered upon his vacation term, but the western trip will undoubtedly bring the relief he seeks.

THE COMING ENGINE.

R. J. Lyons, assistant road foreman of engines of the Pittsburg, is inclined to the belief that the class E-2 pattern of locomotive is destined to supplant all the present style locomotives in the heavy passenger service on the Pennsylvania lines west of Pittsburg. Pennsylvania railroad engine 289, which is of this pattern, has been here a week, running on the heavy passenger runs, and Mr. Lyons has been riding on her and noting the results. He is well pleased with the engine and his experience with her called forth the foregoing predictions as to the future. Mr. Lyons has now turned his attention to the freight service and for several days will ride over the road on engines hauling heavy freight trains.

J. L. PILLING HERE.

James Lowe Pilling, who represents the Railroad Supply company, of Chicago, arrived in the city last night and spent the day with the local railway officials in the interest of the supply people. Mr. Pilling is an interesting character and has quite a remarkable career. He has been engaged in literary work off and on for some years, just as a "side issue," one of his most interesting productions being "The Keel of the Kearsarge." Mr. Pilling figured quite prominently in one of the greatest newspaper scoops on record and he is wont to point to that event with considerable pride. The story, as related by Mr. Pilling, is as follows:

"I will tell you about a newspaper scoop that has never been equaled since 1868, which made one man and one newspaper famous, and, so far as I have been able to ascertain, that scoop has never been equaled since. In the year mentioned I ran away from a ship in Bombay. The British government was chartering everything that would float to carry the necessities of warfare to the Red sea to be transported into Abyssinia, and I, like a chip on the surface, was drawn into the stream and cast up on the beach at Aden, like the rest of the merchandise. Through an accident that happened on shore an ordinary looking man seemed impressed with my gall to such an extent that he hired me as coxswain of a boat to convey whatever messages might be handed to me by relays that were to be established from the seacoast to the seat of war on board of a British man-of-war, which was anchored off shore in the Red sea. This man proved to be Henry M. Stanley and the scoop mentioned was his message to the New York Herald, which I conveyed on board this English man-of-war, from whence it was sent through Europe, over England, across the channel to Ireland, across the bed of the Atlantic ocean through an English wire to the New York Herald, when James Gordon Bennett, sr., repeated the message back to England to the British government that their foe, the king of Abyssinia, was dead."

INDUSTRIAL NOTES.

Henry Shives, of the Bass blacksmith shop, is sick and off duty.

Nickel Plate Fireman D. N. Marble is off duty on account of sickness.

The employes of the Fort Wayne Electric company received their semi-monthly earnings today.

C. E. Walton, of the Chicago Terminal division of the Pennsylvania, was in the city over night.

F. Kraft, of the Pittsburg boiler shops, is on duty again. A week ago one of his legs was painfully injured.

J. B. Olinger has returned to his duties in the east car shops after a two weeks' absence on account of an attack of tonsilitis.

Professional business took Dr. C. B. Stemen to Upper Sandusky, Ohio, yesterday. The patient was an employe of the railway.

Nickel Plate engine 170 has been placed in the regular passenger service on trains 4 and 5, relieving No. 2, which will do extra passenger work.

William Keim, C. Mongen and William Reffelts resumed their duties on the Nickel Plate yesterday, after a brief absence on account of sickness.

C. A. Stemen, yard conductor of the Pittsburg, and D. D. Greenwald, H. G. J. Weiman and M. L. Miller, of the freight house, are sick and off duty.

George Knowlton has resigned his position in the laboratory of the electric works. He does not make known his intentions as to future employment.

Master Car Builder J. A. Graham and Chief Car Inspector W. W. Todd are in Chicago today looking after business for the Pennsylvania car department.

Fireman L. H. Kennedy, of the Pittsburg, is suffering from an affection of the ears, which was due to exposure and dust, and will be unable to work for a few days at least.

Conductor P. H. Seaney, who was off duty on acount of sickness in his family and himself, reported for work on the Nickel Plate yesterday. All the sick ones have improved.

P. McGloin, for twenty years an employe of the Wabash, with headquarters at Ashley for six or seven years, was a caller at the shops in this city yesterday, where old friends gave him a hearty welcome. Mr. McGloin has retired from railroad work and is now engaged in soliciting for an accident insurance company. He is meeting with success.

Engineer F. Simonton is sick; Engineer J. B. Ryan has a sick wife; Engineer Philip Titus is off duty on account of private business, and Fireman E. F. Henline is sick. All work on the Pittsburg road.

H. J. Acker, foreman of the Pittsburg freight house, left for Philadelphia last evening to join his wife and children and accompany them to this city. They had been visiting relatives in the Quaker City.

John Feiderspield is temporarily serving as night watchman at the electric works. S. W. Richards, the regular watchman, is taking a lay off to attend to some private business.

T. W. Demarest, of Columbus, Ohio, superintendent of motive power of the Pennsylvania Southwestern system, was here today on business with Supt. D. F. Crawford, of the Northwestern system.

Israel M. Adelman, a stenographer who has been employed in the office of Trainmaster D. H. Caldwell, of the Nickel Plate, for some time, resigned that position yesterday, to take a similar one in the office of Urbahns & Urbahns, insurance agents.

The Pittsburg and Lake Erie is having two big passenger engines built which will not only be powerful but very fast. It is expected they will haul the heaviest express trains of the road, or a train of ten cars, from Pittsburg to Youngstown in one hour distance, sixty-one miles.

Fred Knoll, who operates the large press in the removal and putting on the axles of the engine drivers at the Wabash shops, was slightly injured yesterday. A block slipped from position and fell against Mr. Knoll, painfully bruising one of his arms. He will be unable to report for work in a couple days.

Drs. Kells, Sandoe and Talbott, the examining board of the pension department of the Pennsylvania company, left yesterday afternoon for Chicago, where they examined a class of applicants this morning. Twelve men were examined here and it is likely that all will be recommended for the pension list.

TRADES' COUNCIL FAIR.

The Edmunds Electrical company is preparing a wonderful exhibit for the Trades' Council fair which commences next ednesday night. They expect to expend no less than $600 in placing their exhibit before the public and have arranged with the Fort Wayne Traction company to get power from their big dynamo. Frying eggs on ice, cooking under water, melting steel like butter, and other wonders of electrical science will be demonstrated by an expert. This will be only one of a dozen or more interesting exhibitions which will be seen at the fair.

ENDURED SILENTLY.

Only a Woman Knows That Terrible Dull Aching Pain—That Aching Back, Languor and Weakness.

It is the Words of Women Who Have Used Dr. A. W. Chase's Nerve Pills Which Make Their World-Wide Reputation

Dr. Chase Says: "They Lift So Many Women From a Long Suffering Condition to Perfect Health, Because They Rebuild the Nerves--Renew the Blood.

Mrs. Ann J. Wiesmore of No. 201 Forest Avenue, Buffalo, N. Y., says: "For the last three years in particular I have been so bad with nervous spells I could do no work, nor was I allowed to go anywhere alone, as attacks were liable to come on at any time and I was helpless. I think it is due to my age and change—54 years. When the attacks came on, I was so dizzy I was nearly crazy. A sudden bloating and rolling and tumbling of gas in the stomach began that interfered with and pressed up against my heart, making its action for the time irregular—then my head filled up with blood and made me feel crazy—I did not faint, but had to keep moving constantly—could not keep quiet a minute. My eyesight went all to pieces—there was a constant blurring—I had hot flushes until the perspiration stood out all over me and, strange to say, the appetite kept good, but was unnatural. Well, to make a long story short, after trying all sorts of medicine and many physicians, I got a box of Dr. A. W. Chase's Nerve Pills and they have done what all the rest could not—I am well and strong again. I can do my work, can be left alone, can go where I please and feel as it life were worth the living again—my family is delighted as well, and we cannot say too much in praise of this medicine. Not an attack since I used the two boxes, and from a condition of utter wretchedness to one of health and comfort. Isn't that enough to make me feel I can heartily recommend them to others as a grand medicine?

Linen Collars 10c. New Ones For Old.

We sell for 10 cts. a 4-piy Linen Collar in your choice of 25 new styles. They are the 15 cent Collars of elsewhere, but we sell them at cost.

When you get a dozen dirty, bring them back. Pay us 30 cents---just what laundering costs you ---and we will give you a dozen new collars. Bring back that dozen dirty and we will exchange them again.

We never sell the same collars twice. You wear none but new collars, and $1.20 buys enough for a lifetime. We get nothing out of this plan save the advertising, but every man in Fort Wayne who knows of this offer will buy his collars here.

Wolff Brothers,

Suc. to Sam, Pete & Max. 58 Calhoun Street.

Women of Taste

Like to see the men of their families and acquaintances well dressed, and if you come to the right store you can be fashionably appareled at no great cost. Clothes bearing this lable are fashionable in cut, serviceable in wear, and give the wearer that faultless, well-dressed appearance that can only be equaled by the best made-to-measure garments that cost nearly twice as much. All the new novelties in men's and boys' suits from the medium grades to the best that's made. Buy your Easter suit and overcoat of us.

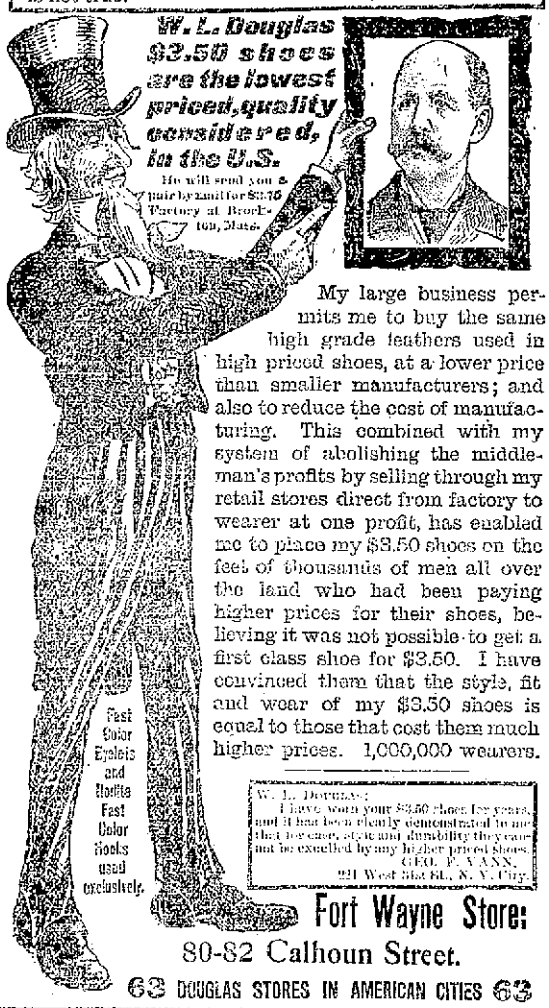
W.L. DOUGLAS $3.50 SHOE UNION MADE

My $3.50 shoes, placed side by side with high priced shoes, are found to be just as good, and it is impossible to see any difference. I make and sell more men's fine shoes, Goodyear Welt (Hand-Sewed Process) than any other manufacturer in the world. I will pay $1,000 to any one who can prove that my statement is not true. (Signed) W. L. DOUGLAS.



W. L. Douglas $3.50 shoes are the lowest priced, quality considered, in the U.S.
He will send you a pair by mail for $3.75
Factory at Brockton, Mass.
Fast Color Eyelets and Rivets Fast Color Eyelets used exclusively.

My large business permits me to buy the same high grade leathers used in high priced shoes, at a lower price than smaller manufacturers; and also to reduce the cost of manufacturing. This combined with my system of abolishing the middleman's profits by selling through my retail stores direct from factory to wearer at one profit, has enabled me to place my $3.50 shoes on the feet of thousands of men all over the land who had been paying higher prices for their shoes, believing it was not possible to get a first class shoe for $3.50. I have convinced them that the style, fit and wear of my $3.50 shoes is equal to those that cost them much higher prices. 1,000,000 wearers.

W. L. Douglas:
I have worn your $3.50 shoes for years, and it has been clearly demonstrated to me that for ease, style and durability they cannot be excelled by any higher priced shoes.
